Mint of the United States
Phila.a Jan 7th. 1854.

Sir,

Your favor of the 31st ult. stating the number of dies of the year 1853 cancelled at your branch of the Mint, and also stating the number reserved for 1854 has been received. to gether with the enclosed Weekly Statement,

I have to acknowledge the receipt of your favor of the 31st ult in which you inform me of the dies of 1853 which cancelled at your branch, and stating the number of coining dies reserved for the year 1854.

I have to acknowledge the receipt of your favor of 1st inst the enclosure Slatea rad. Package No 1 of Coins reserved for the annual assay with a list of its contents,

Treasury of the United States
Washington February 11th

Sir

I am directed by the Secretary of the Treasury to transmit herewith a letter addressed to him by Mr. Little of Virginia on the subject of his claims against the United States, and to request that you will cause the same to be carefully examined by the proper officer of your Department, and report to this Department what amount, if any, is due to Mr. Little.

I enclose a copy of Mr. Little's letter to the Secretary, and ask that you will report to me, upon the matters therein referred to, at your earliest convenience.

Very respectfully
Your obt. servt.

of the Mint

18th Feb. 1854

U. S. Branch Mint
Dahlonega Ga. 16th Feb. 1854

Sir –

Yours of the 1st instant has been receivd – and inclosed you will please find Statement of Silver parts from Gold deposits from 1848 to 1853 inclusive as requested.

The amount, $362.19, paid to Depositors for Silver, was credited to Gold coinage, because the payments were made in Gold coins & thereby Gold Coinage was reduced that amount – & debited to Silver Bullion, because the Silver contained in these deposits, increased the Stock of Silver Bullion on hand; but the 1st Comptroller of the Treasury has required me to change this amount to Gold Coinage & credit Silver Bullion. This arrangement will make both these accts wrong. – I have addressed the Secretary of the Treasury on the subject but have not yet had any answer.

The credit to "Bullion Deposit Profit & Loss" on the 31st Decr. 1853 for the one half of one per cent for Coinage from 1st April last to that time was $1792.42/100.

Very Respectfully Yr obt Servt

Statement & Acct of
Accountants

20th Feb, 1854

U. S. Branch Mint
Dahlonega Ga. 14th Feb. 1854

James Ross Snowden Esqr.
Director of the Mint -

Sir -

Your letter of the 6th inst. was received yesterday - I had last week, according to a request contained in your letter of the 1st inst, forwarded you a statement of the amount of Silver parted from Gold deposited, both for the Mint & for depositors, from 1st January 1848 to 1st January 1854 - but that request did not extend to the deductions made on the same time, & now I give you a statement of the amount of these -

	Deductions for Copper &c -	Gains in Assay fractions -	Total
1848	$76.16	84	$77.00
1849	78.75	1.10	79.85
1850	55.37	92	56.29
1851	36.72	97	37.69
1852	40.36	1.10	41.46
1853	18.72	90	19.62
	$306.08	$5.83	$311.91

The deductions for the one half of one percent for Coinage, from 1st Jan. to 31st December 1853

was $1792 43/100.

The amount standing to the credit of "Bullion Deposit Profit Acct" on the 31st Dec. 1853 was $2899.87 — being composed of the Coinage charges $1792.43 & $1107.44 the balance of Silver parts from 1st July 1853 to 31st Dec. last the alloy used in 4th Qr. 1853 — which amount was credited to this Acct under the instructions of your letter of 27th Oct. 1853 — but when the amount for Silver parts is taken out of this Acct, as directed by your late letter on this subject, the amount to the credit of this Acct will be $1792.43.

The Balance standing to the credit of Profit Acct on 31st Dec. 1853 — was $1418.72 but if we add the amount of Silver parts from 1st July to 31st Dec. 1853 $1107.44 the balance would be $2526 16/100.

In the printed Form of abstract sent out by you in December, the only charges on the deposit are for Parting & Coinage — & that was intended to be a full history of the deposit — hence I infer that the charges heretofore made for Copper alloy &c are not to be made now.

You will please pay Messrs N. Strong & Co. their Bills against this Branch — also settle the bills for the Gross Register & the other articles sent out by you, & send me

proper vouchers for my settlement with the Treasury Department.

The first bill of Mess[rs] N. Lansing Sen — was settled upon an order in November last.

Yesterday in breaking down Sagatt, we broke one of our rolls — we have another pair with which we can get along until we can get another set, — which you will please order for us at once.

John D. Field Jr. Esq., Coiner has furnished me the inclosed drawing — which, he says, represents the exact size of the Rolls after being chilled, ground down & finished. One Roll would answer the purpose, but we had better have a <u>pair</u> if new ones & then in case of accident, we will have an extra to fall on.

S. T. Morris Esq., furnishes the last Rolls & may have the moulds in which they were cast.

Annual Assay

15th Feb. 1854

Mint of the United States
Philada Feb 18, 1854.

Sir

The trial made by the Assay Commissioners on the 18th inst of the Bronze coin delivered at your Branch for the year 1853 resulted as follows, viz:

The registered value of said coins was	$64.000
Legal weight thereof	" 64.502
Actual weight of the coins	" 64.506
Excess of actual above Legal	.004

The fineness of the same coins was 879.7 thousandths being 120.3 below the legal standard, but within the limits of variation allowed by law. The trial was satisfactory.

Wm. J. M. Patten Esq
Supt. Br. Mint
Dahlonega
Geo,

Relating to Mr Fields
Bridge account,

Feb, 23d 1852,

Branch Mint of the U. S.
Dahlonega Ga. 16th Febry. 1854

Sir —

Your letter of the 9th inst., enclosing a copy of a letter addressed by John D. Fitch Jr. Esqr. Melter & Refiner at this Branch, to the Secretary of the Treasury, was received by the mail of yesterday.

At the close of last year, after the Melter & Refiner had returned all the Silver Bullion in his possession, there was a balance charged against him of $302.79 — the legal allowance for wastage on the Bullion delivered to him during the year was $65.31 — leaving the deficit $237.48¢ I suggested to him the propriety of making application for a special allowance for wastage, as he believed it was impossible that the limit allowed by law for wastage could be made to cover the actual waste, or loss, of Silver when used as a material in refining Gold to the extent now required.

Previous to 1851, the receipts being chiefly Georgia and Carolina Gold, which contains much less Silver than the California gold, there was but little refining done, especially as the alloy was then composed of 1/4 to 1/2 of Silver — but as soon as the influx of California Gold made more frequent refining necessary, the losses in Silver began to occur; for instance in 1853, the deficit in the Melter & Refiners Silver of

— 1 —

was $128.36¢ + in 1852 it was $291.17.

These amounts exceeds considerably the legal allowance for wastage, (as much as the deficits of 1853 did,) but my predecessor credited the Melter & Refiner, and charged these amounts as a necessary loss to Profit & Loss ac.

I did not feel authorized, at the close of last year, to credit the M. & R. with any more than the legal allowance upon the amount of Bullion delivered during the year.

I have at all times urged upon the workmen the necessity for using the utmost care to prevent loss, and I believe that they have exercised as much care and caution as could be required. Accidents will occasionally occur, by the breaking of a bottle, by which loss is sustained.

The preparations and conveniences in the refining room are not so perfect and complete, as Mr. Field says, as they are at the Philadelphia Mint — and, in my opinion, it is hardly reasonable to suppose that they should be.

From what I can learn of its former condition, it is as well provided for work now as it has ever been, if not better. We have as many large tubs as I see any use for in the operation of refining such quantities of metal as we have to work with — & such other vessels, as are needed. It is true that the metal has to be removed from one tub to another by dipping — but when sufficient care is used, I see no necessity for much waste in this operation, especially when the quantity

of Metal is small.

As to the necessity for a new Mill for reducing the pots & crucibles, I cannot agree with Mr. Field upon the last grinding. I think, the sand, as sample, was as fine as the samples forwarded to you sometime since. I am not apprised what the cost of such a Mill as he wants, (like the one in use at Philadelphia) would be, but suppose, from his description of it, that the cost of putting up such an one here would be considerable & much more than would be justified by the anticipated saving in that way even admitting that the Mill in use here, were as imperfect as he thinks. The one we have is the Bagaden Patent, by which the pieces are crushed with cast plates.

As to the mode of assaying — there has never been any other process than that by capellation used at this Branch, and it is impossible, I suppose, that the assay of Silver can be made in this way as correctly as by the humid process.

I believe I have noticed every point that it occurs to me is material.

Very Respectfully

Acknowledging the
receipt of letter of 10th inst

18th Feb. 1854

Mint of the United States,
Philadelphia, February 18th 1854.

Sir,

I have received yours of the 10th inst. with its enclosure.

In reference to the amount paid to depositors for silver parted from gold, you remark, that "the 1st Comptroller of the Treasury has required you to charge this amount to Gold Coinage & credit Silver Bullion, this arrangement will make both these accounts wrong, and that you have addressed the Secretary of the Treasury on the subject."

By reference to the Act of 18 Jan. 1837, you will perceive that it gives, to the Director of the Mint, the general regulation and supervision of the Business of the several Branches: your communicating on the above named subject, should therefore have been directed to myself, without troubling the Secretary with it.

The entry charging Silver Bullion and crediting Gold Coinage, under the circumstances named in your letter, corresponds with that made here in similar cases. I should have [illegible]

pleased, when you rec.d from the Comptroller the letter referred to, had you forwarded me a copy of it, and I trust, hereafter, that this direction will be given to all similar communications.

Very respectfully

Feb, 23d 1854

Mint of the United States
Philadelphia, February 23d 1854.

Sir,

I have received your letter of the 16th in reply to mine of the 9th instant respecting the allowance for Silver wastage for 1853 claimed by your Melter & Refiner.

It is the practice at this Mint to credit the Melter & Refiner for sweeps delivered by him to the Treasurer at their full value as ascertained from the Assayer's report thereupon. I infer from a remark in Mr. Fields letter on this subject, that he has not been thus credited. You do not notice this point in your Communication. I think it important to close this account with the value of the Sweeps delivered by him to the Treasurer, before determining the balance against this account. Please state what this amounts to.

For the purpose of having a complete view of the entire operation of the Melter & Refiner affecting the question of a proper allowance for wastage I will thank you to have made out & forwarded to me his gold returns &c. for the year 1853, embracing also his accounts as Coiner. In the meanwhile, I shall have this matter under Consideration with a view to rendering my decision as soon as I hear from you.

Transmitting
Statement &c

11th March 1854.

Branch Mint of the U. S.
Dahlonega 4th March 1854

Sir –

Enclosed please find statement & affy required by your letter received by last mail.

On the Books of this Office, there does not appear ever to have been any credit entries in favor of the Melter & Refiner for the value of the sweeps returned by him – and no credit was given that officer last year on this aft.

His sweep was thrown on the pile in the cellar, which has been accumulating for years, and it is impossible now to tell precisely what amount he is entitled to for last year.

Our assayer has been testing the value of the sweep, after having all the sand well mixed – and I hoped to be able to state the exact of his assay in this letter, but he lost the metal yesterday in his operations, and I shall have to await another trial. Think I shall be able to forward to you by next mail.

I have delayed forwarding the vouchers as directed an account of the dreadful condition of the Roads in this section for the last two months & the difficulty of getting barrels of the proper kind.

The reason I did not address you in reference to the order of the 1st Comptroller was that I conceived that the entries had been made strictly in accordance with your instructions of last January subsequent to the request of the 1st Auditor of the Treasury. & I thought it proper to state this to the Secretary of the Treasury in order to explain why I did not comply with the order of the Comptroller.

I enclose that portion of the Comptrollers letter bearing upon this point.

J. M. Allen Esq
Supt Bullion

Branch Mint of the U. S.
Dahlonega Ga. 7th March 1854

Sir—

Our sweeps, upon measurement, amount to 98 Baskets of 82 lbs each.

This is the accumulations of 8 years— and as it has ever been customary at this Branch to credit the M, to R, with the value of his sweeps— it is impossible to say precisely what amount he is entitled to for the last year as his sweep was mixed with what was on hand— but as there was not much depositing previous to 1850, I think his sweep for last year might be put down at 20 Baskets.

The first assay made by our assayer shows the value to be 22$ per lb— Troy but as he last the Silver, he made another trial and the result was, Silver regarded, 14$ per lb.

The Melter & Refiner is not satisfied with these tests— and if an opportunity offers I will forward you a sample of the sweep from which these tests were made.

He has the sand all well mixed & took a small quantity from every two buckets as it was being measured & then stirred up the sand thus collected, & has the tests made.

The samples forwarded to you sometime since were taken from the top of the piles in the cellar, and the average value of them

Mar. for Gold Dollars, 96¢ per Oz.

Director.

Hon James Guthrie
Sec. of the Treasury
Washington City.

Mint of the United States,
Philadelphia, March 15th 1854.

Sir,

I have received from the Superintendent of the Branch Mint at Dahlonega a statement respecting the claim of the Mobile & Refiner for credit for 1853 in the settlement of his account of Silver. From this statement it appears that it has not been the practice at this Branch to credit the Mobile Refiner for the sweeps delivered by him to the Treasurer. Mr. Patton estimates, that about 16 20 lbs of sweeps were thus delivered, for the year 1853 which at 14½ cents, per lb would yield $237.30. From the information furnished to me, I am perfectly satisfied that the Mobile Refiner should be credited in the settlement of his account of Silver for 1853, with the amount of sweeps as above stated, which is sufficient to balance his ofe acct. I have accordingly directed the Superintendent to allow said credit.

I herewith send you Mr. Fields letter, enclosed in yours of the 8th inst which you therein requested me to return to the Department.

I have the honor to be

15th March 1854.

Mint of the United States
Philadelphia Mar 1 1854

Sir,

Your letters of the 4th & 7th inst. & accompanying Cabin statements & accounts respecting the claim of your Melter & Refiner for wastage for 1853 in the settlement of his account of Silver were duly received.

From your statement it appears that the M & R. delivered to the Treasurer, for the year 1853, about 1044 lbs. of sweeps, which at 14 ozs per ℔. would yield $ 229.60, a sum almost sufficient to balance his account. Under those circumstances, I have to request that you will allow him credit for the amount required to balance his a/c for 1853, viz. $ 237.45: which may very properly be done by crediting him for 1696 ℔s @ 14 ozs per ℔.

Wherever you can work a due regard for economy forward the sweeps to this Mint, & I will thank you to send the entire amount on hand by the first opportunity & forward me a bill of lading therefor.

Very respectfully,

James Ross Snowden

Mint of the United States,
Philadelphia March 6th 1854.

Sir,

The extract from the letter of the 1st Comptroller of the Treasury, which you sent to me, explains the variations noticed by him, in your Silver Deposit Account.

The difference between your account and this statement, amounting to $362.22, seems to have been caused by payments for Silver parted from gold deposits, having been made out of balances of gold coinage, instead of being credited to Silver [illegible]

[illegible] this Mint, in consequence of a single warrant issued for the payment of the net value of a gold deposit even when Silver has been reported as parted from the gold, for the benefit of the depositor. This mode of accounting is rendered necessary by the issue of only one warrant as just stated: but at the close of the quarter, the Book[illegible] before closing his accounts, ascertains the actual condition of the gold & silver coins in the Mint as for by Count, and compares it with the condition of those coins as appears from the books, and adjusts the two, by an adjusting entry, so as to produce a correspondence between the books and the actual Count of the Moneys.

14/42

ans

Mint of the United States,
Philadelphia, March 18th 1854.

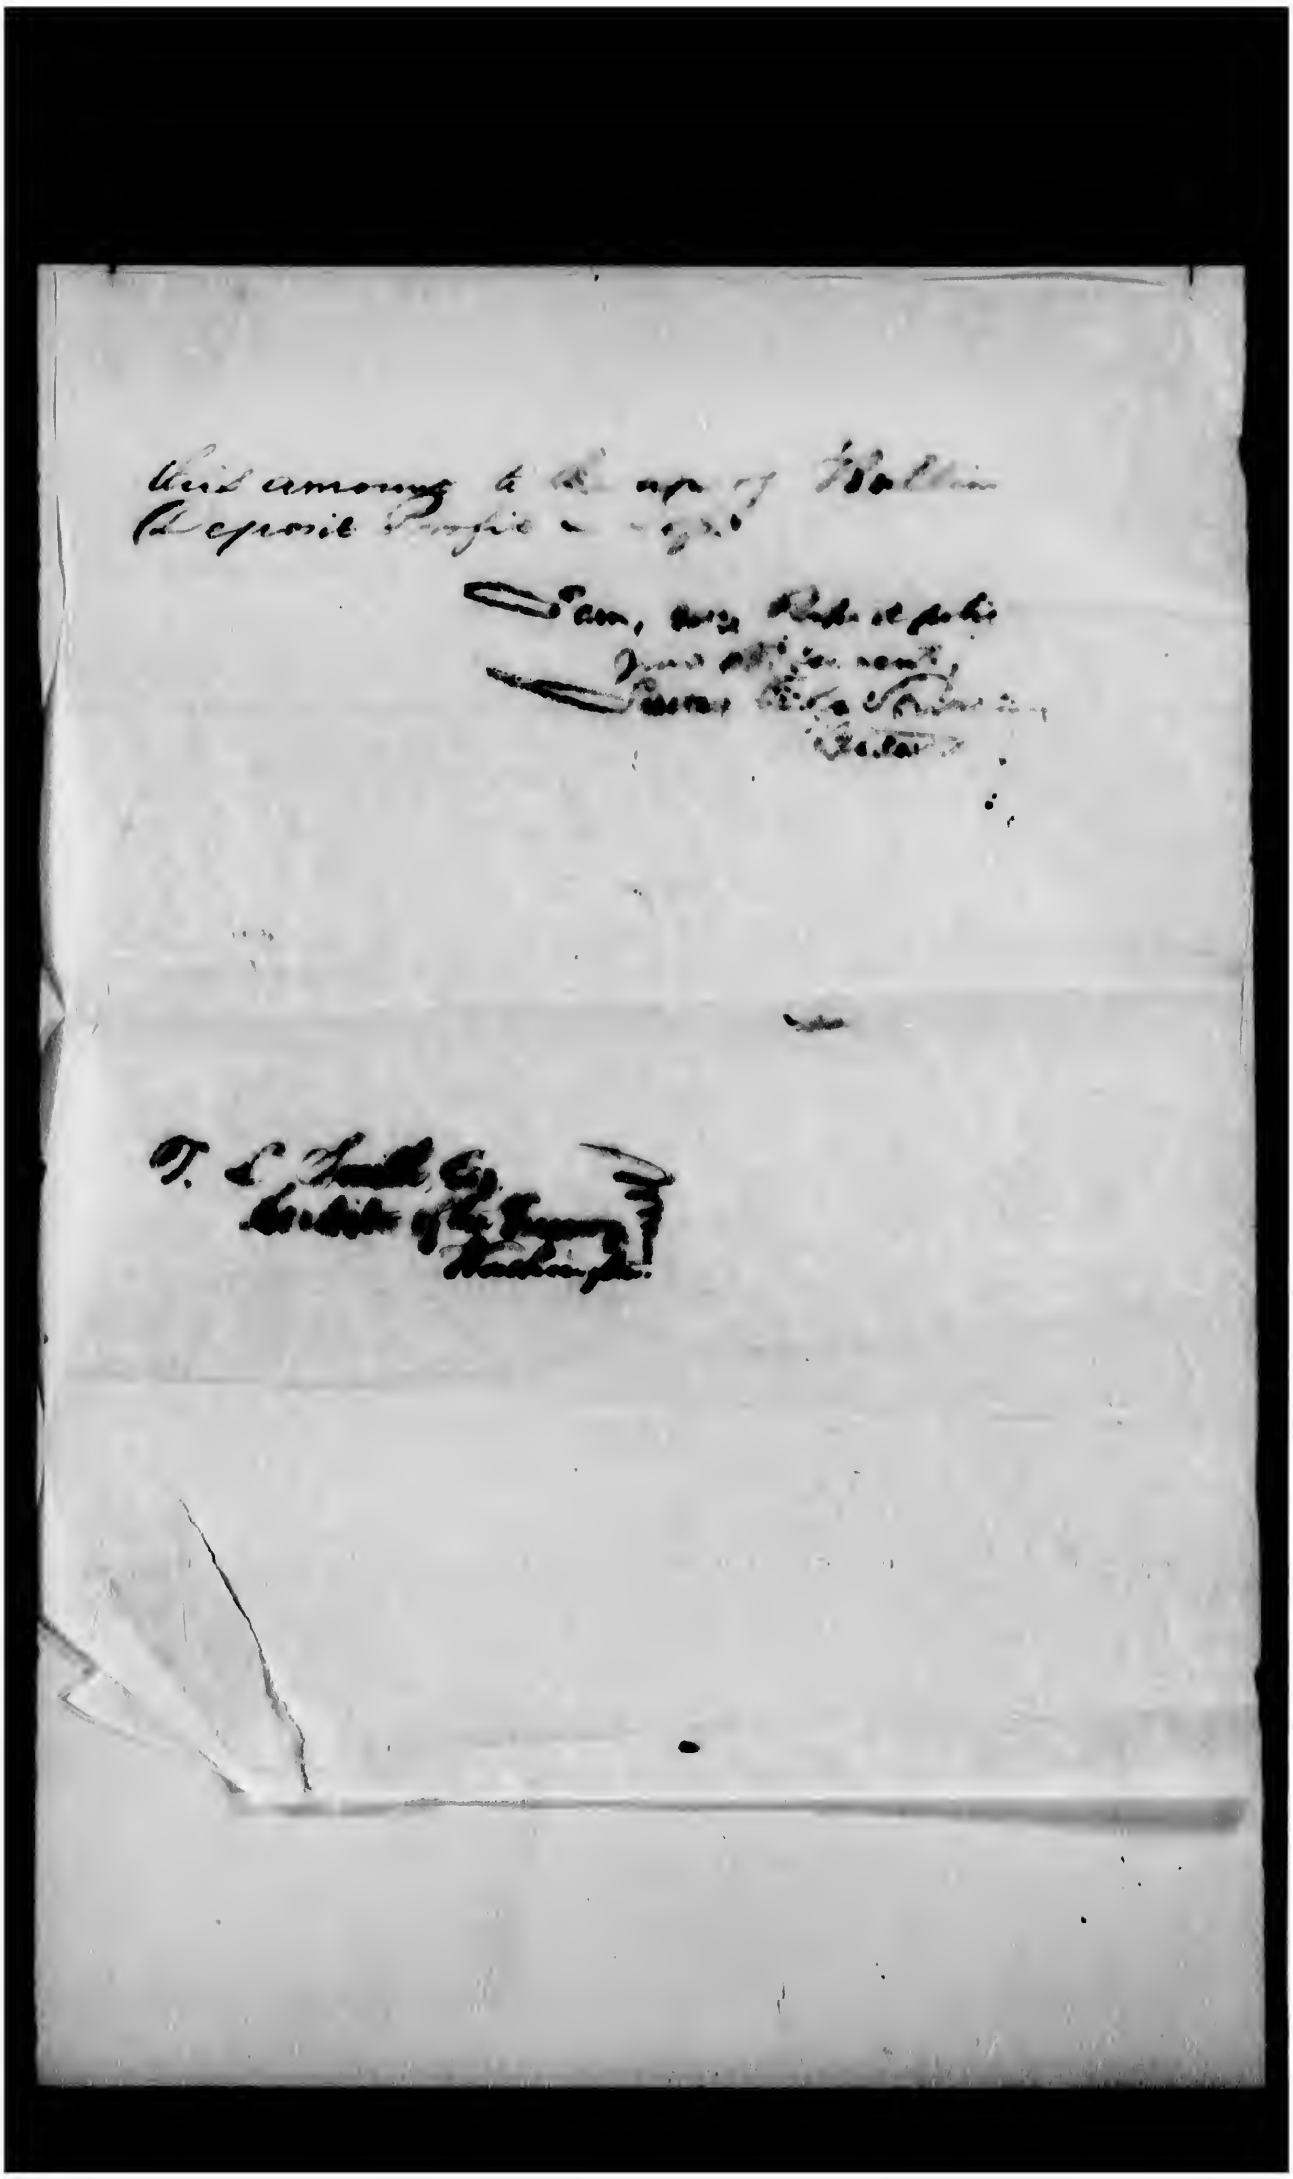
Sir,

Yours of the 16th inst. has been received.

In reply to your query respecting the instructions issued by me to the Supt. of the Bullion at Dahlonega as to the mode of accounting for the Silver parted from gold deposits for the Mint, I have to state, that on the 18th January I wrote to him as follows: "I have upon further consideration of the Act of 18th Feb. 53 in relation to profits, concluded to regard the Silver parted for the benefit of the Mint and not for the depositor as belonging to the Mint for the payment of the ordinary expenditures, inasmuch as the expenses incurred in recovering said Silver amount to nearly the entire sum thus recovered. You will, therefore, credit Profit & Loss with the Silver parted for the benefit of the Mint, and not Bullion Deposit Profit & Loss so that you may transfer the amount to the Ordinary Account from time to time."

I presume that the Treasurer's account for the 4th quarter 1853 were prepared & forwarded to you, before the receipt of my instructions of the 18th January and that in this case for the 1st quarter 1854, he will restore to the credit of Profit & Loss the amount taken out for Silver parted for the benefit of the Mint and placed to the credit of Bullion Deposit Profit & Loss.

In relation to the transfer of Silver bullion from the Dahlonega Branch Mint to Philada I would remark that, upon receiving from the Sec'y of the Treasury a letter enclosing the letter of the 1st Auditor to the Comptroller dated 28th October last Nov. 1853 which has returned to me for an answer, I wrote to the Secretary of the Treasury explaining the action heretofore observed with reference to the transfer of Gold Silver from the Branch Mints to Philada, and received this reply dated Nov. 8th, authorizing the transfer to be made.
I accordingly directed the Supt. at Dahlonega to send his Surplus Silver to the Mint. The assays of the Gold Dep. from him made the weight of Standard 2018.90, which at 1.21 cents per ounce yielded $2439.23, which amount was credited to the Treasurer by the Supt. of the Gold & Melter & Refiner has been credited in acct with the Dep. for the payment of expenses here on acct of the Branch Mint at Dahlonega. The assays here, shew the intrinsic value of the Silver to be 22.873 ounces equal $23.03 more than stated by the Dahlonega Mint & therefore the Melter & Refiner's acct of Silver should be credited therewith, leaving $23.03 to be credited to the Treasury of the United States as profit on Silver. As there is no Silver Standard Profit & Loss acct at this Branch, it will be necessary to credit



To Supt - Dahlonga

Transmitting Monthly Report for March
Expenditures of 1st Qr. 1854.

Enquiries what is to be done in case of Mint Receipts being lost.

15th April

April 1854

Branch Mint of the U.S.
Dahlonega Ga. 5th April 1854

Sir,

I have the honor to forward my report of the operations of this Branch for the month of March — also to forward the coins reserved for the annual assay during the same time with a statement of the contents of the package.

You will also find enclosed a report to the Secretary of the Treasury of the Expenditures of this Branch for 1st Quarter 1854.

I have receives your letters of the 15th 16th & 29th March. The credit has been entered to the Melter & Refiners Silver as directed. The scraps will be forwarded now in a short time.

You will please have your Clerk to forward me the receipts for the payments you have made for me. That I may include them in my Offs in settlement with the Treasury Department.

You will also please to urge the Manufacturer to let us have the Rolls ordered as soon as possible as the pair here operates badly — they had better

be forwarded by Express when ready.

Very Respectfully

13th April 1854

Mint of the United States,
Philadelphia, April 15th 1844

Sir,

I have received your letter of the 8th inst. in which you ask for my views in relation to the manner of the shipping of the new gold & silver dollars sent to Philadelphia from the Mint and Branch Mint in order to be sent on the Charles Brandt.

On the 6th Feb. 1843, the Comptroller of the Treasury recommended [illegible] Coin, that the Coin of Silver Dollars at the Philadelphia Mint be sent in Kegs and put up in other Coins to enable said Mint to pay deposits in the same Coin.

On the 8th of the same month with the approval of the Secretary, agreeably to the Comptroller's suggestion, I directed the Treasurer to make payments of the Silver Dollars in the manner of deposites that is in the original Coin, paying them at the rate of 100 cents per dollar, and for Silver Coin at the rate of 100 cents per dollar, thereby saving the necessity of altering the Silver Coins to Dollars and the Deposits of Silver Dollars may thus be paid in

the wants of the Branch Mint here & are only as a fund to supply them with [illegible]

No objection having been made to the Coinage, I have accordingly placed the proceeds of the silver bullion received from Dahlonega since that time, to the credit of the Superintendent of the Branch mint there with which & $400 returned to him in silver coins, by the hands of Mr. Field, the Melter & Refiner, who brought the silver bullion from Dahlonega.

Now as the amount standing to the credit of Forsyth & Co on the books of the Dahlonega Branch exceeds the balance of proceeds of silver bullion sent from there since the 1st of October for coinage, I would propose that this sum be considered as part of the ordinary funds of the Treasurer of the Dahlonega Mint, to be disposed of by him in the purchase of materials on account, or subject to the Superintendent if he should need any portion of it on to him. As respects the Treasurer's case, if any part of the said silver is not coined, the same satisfy its claims of the ordinary funds in his hands, the

From
J. M. Patton Esq
Supt. Branch Mint
Dahlonega,

Respecting the legality
of a Minor making
a deposit of bullion
& drawing & receiving
proceeds of the same
Directions &c enclosed

18th May 1859

Branch Mint of the U. S.
Dahlonega Ga. 6th May 1854

Sir—

I have been informed that a case of this kind will come up at this Branch in a short time. Father & Son, (the Son then & still a minor) went to California — the Father returned sometime since, leaving his mining interest with his Son; — the Son has recently returned, & there having been a disagreement & separation between the Father & Mother, during the Son's absence, the Son now refuses to account & settle with the Father according to the contract made between them it is alleged.

If the Son makes a deposit, I am informed that I will be notified not to pay over the proceeds of the deposit to him. I informed the party that I should feel it my duty to withhold payment until I could take your direction in the premises.

Sometimes minors who have been permitted by their parents to go to California, return & desire to make deposits; shall I require a person that I know to be a minor, to procure some friend in whose name he can deposit his Bullion — or may I receive it in his own name? The latter

course was pursued by my predecessor - upon the ground that he has been recognized as of full age by the conduct of his parents - & that the Treasurer must persons the individual in possession of the Bullion to be the legal owner.

Very Respectfully

enclosed.
Aug 12. 1854

Branch Mint of the U. S.
Dahlonega Ga, 4th July 1854

Sir

Yours of the 19th June was not received until to-day — having been sent to New Orleans.

My report for the 2nd Quarter was forwarded before its receipt.

According to the instructions in your letter of the 27th Ult. last — "Bullion Deposit Profit & Loss" a/c. was opened & has been credited with the Coinage charges from 1st April 1853 to the 30th ultimo — and the amount due the Treasury on this account was, on the 1st Inst. $2.441.65/100

In that letter, you say: "At the close of each fiscal year you will transfer the profits standing to the credit of "Bullion Deposit Profit & Loss" to the Treasury of the United States agreeably to the act just cited".

The act cited, declares — that "the money arising from this charge of one half per centum shall be charged to the Treasurer of the Mint, and from time to time, on warrant of the Director of the Mint shall be transferred into the Treasury of the United States".

Now the question with me was

Whether this amount was to be placed to the credit of U. S. Bullion account, at the close of each fiscal year, — or whether it was, by the Branch Mints, to be transferred to your Mint, and thus carried into the Treasury of the United States: and you will allow me, most respectfully, to suggest that the letters referred to by you do not, in my opinion, speak out the mode by which this Fund is to get into the Treasury of the United States.

The package of Reverse Ps Eagle dies, requested on the 10th June, was received several days since.

Very Respectfully

Mint of the United States.
Philada July 12, 1864.

Sir,

I have to acknowledge the receipt of your letter of the 4th inst. The transfer to the Treasury of the United States of the amount standing at your Branch on the 30th ult. to the credit of "Bullion Deposit Profit & Loss," is to be effected by placing the same to the credit of "United States Bullion Account"; and upon doing so you will notify the Treasurer of the United States of the fact. The amount thus placed will be subject to the draft of the Treasury Department at Washington.

I am very Respectfully.

Articles enumerated by Mr. Madison to be ordered from Europe through Mr. Pastmun. Comp. here for U. Barzans - & till R.a Sept.r:
As to articles requested - those not already sent shall be ordered. Enclosing list of articles forwarded to Belle Isle - Enclose Lenning Visible. Can't get R. I. for sometime - can Sept.r come over here?

Mint of the United States:
Philadelphia, September 1st, 1851.

Dear Sir:

The articles requested by Mr. Mason in his list (herewith returned) will undoubtedly be needed, and you will please send an order for them. Such articles are always procured for us through the agency of Dr. Joseph R. Harrison, formerly Assayer of the Dahlonega Branch Mint, now superintending the disposal of Mint Drafts, in England and France. His address is care of Messrs. Baring, Bros. & Co., London; they will send your letter immediately to Paris, where Dr. H. was, at last advices.

In the meantime, our Assayer says he can lend you two sets of gold assay weights, and one of Silver; likewise two balances (and a third of meas Satz), which are now in course of packing up.

You mention Mr. Burrows as having called at your office; if you see him again, please inform him that a Catalogue for Instruments (a large pamphlet) of Secretan & Secretan, Paris, was lately sent here for Dr. Bongard, by Dr. Harrison, and that if he passes this way on his return to N. O., we will thank him to take charge of it, unless he would rather it should go by mail.

The three carboys of pure nitric acid requested by Dr. Torrey, have been ordered. One of them will be sent in about a week and the other two, as soon as they can be prepared. The gear for the reduction of chloride of Silver, the asst Melter

Transfer of proceeds
of Silver Bullion
from Galveston
to Treas U.S.
Oct 3

Treasury Department
September 30th. 1834

Sir.

The correspondence which has recently taken place between the Accounting officers and the Director of the Mint, in relation to the disposition as required by Law to be made of the silver parted from Gold deposits which accrues to the United States under the Mint Regulations established in pursuance of the last proviso of the 14th section of the Act of the 18th of January 1837, has been submitted for my consideration. The items in question, it would seem from the representations of the Director, cannot be properly considered as profits, the expense of parting being at least equal to the value of the silver separated, I cannot therefore see any reason for changing the established practice at the Mint in Philadelphia of carrying the value of the silver thus separated to the credit of the ordinary expense account. There being a considerable balance, in addition to the appropriation for the current year, to the credit of the appropriations for the contingent expenses of the Branches at Charlotte and Dahlonega, viz, at the former, of $671.20, and at the latter of $7.995.22

it being presumed that the amount which has accumulated at those branches will not be required for their ordinary expenses, it is therefore thought best that the amount transferred to Philadelphia from those branches should be paid into the Treasury -

Should the Director be called upon, at any time, to procure materials or machinery for either Branch, a requisition can be issued in his favor and the necessary funds be supplied in Philadelphia -

You will therefore be pleased to deposit, separately, the amounts transferred from the Branches at Charlotte and Dahlonega, after deducting the expenses of transportation, to the credit of the Treasurer of U. S. as miscellaneous receipts -

Transfer of $1.684,66
to US Treasury being
proceeds of Silver
bullion from Dahlonga
Ga Mint
oct 4. 1854

8 October 1854

Mint of the United States.
Phil. Oct 4, 1854.

Sir,

I have received your letter of the 30th ult: and in compliance with your instructions have this day deposited at the U.S. Treasury in this City to the credit of the Treasurer of the United States, the sum of $1664.66, being the balance in my hands of the proceeds of the Silver Bullion transferred from the Branch Mint at Oahlonega to the Mint in December 1853.

The Silver Bullion at the Branch Mint Charlotte was not transferred to the Mint and the only funds in my hands belonging to that branch are those arising from the proceeds of their received coins. As the balance on hand is only proceeds, and as I shall be called on to pay a part of this amount for expenses lately incurred for that branch, I have thought it advisable to retain the same and thereby

avoid sending a requisition for
so small an amount to meet the
expenses just alluded to.

I have the honor to be

Branch Mint of the U. S.
Dahlonega Ga. 6th Nov 1854

Sir -

I have the honor to forward a report of the operations of this Branch for the month of October - also package No 10 of Coins reserved for the annual assay with a statement of its contents.

I received some days since yours of the 6th ult. containing receipt of Messrs N. Lenning & Co. for $205.96 - leaving my balance against you, as stated, $1684.66¢.

I suppose it will be my duty under the instructions of the Secretary of the Treasury to you, to transfer to the Treasury of the U. S. the balance of the proceeds of the Silver Bullion deposited with you last November, which is, (after the transfer made by you) $754.57¢.

The Melter & Refiner reports the Cash deposited received from Messrs Lenning & Co. as very inferior - says it contains considerable Muriate, requiring the use of Nitrate of Silver

upon each Carboy. If it had been practicable I should have returned it to them.

Very Respectfully,
Your Obt. Servt.

J. N. Patton
Supt. & Treas.

To
James Ross Snowden Esqr.
Director of Mint

Sir,

Your letter of the 8th inst. requesting to be informed of the object designed in returning to the Treasurer of the Branch Mint Dahlonega the sum of $800, on account of the Silver Bullion transferred from that branch to the Mint has been received.

In your letter of the 21st of Oct 1838, to the 1st Comptroller referring the proper disposition of the specie of Silver Bullion which had accumulated at the Bullion Dahlonega, You suggested that the same be sent to the Mint at Philad.a to be converted into coined and that there be returned to the Branch Mint a sufficient sum in Silver Coins to meet the payment to depositors of Gold Bullion for the value of Silver parted from Gold a Copy of the above letter, with one from the 1st Comptroller to the Secretary of the Treasury, dated Nov. 4, recommending the adoption of your suggestion was referred to me for perusal and to state whether it was advisable to make the transfer as suggested. In accordance with the above suggestion instructions were issued to have the Silver transferred to the Mint, with a view to its conversion into Coin to be returned as above, but a regulation was about this time adopted, by which depositors were paid in Gold Coins for the Silver parted from their deposits and there being no necessity for a supply of Silver Coin at that branch for the before mentioned

[illegible] gave conviction that the proceeds of the silver bullion would properly be made to defray the expenses of Mint Establishment for materials, Implements &c. and the charges of coining & be furnished with silver coin for purposes of change &c. (the Amount of which was first drawn in other Coin of about Sterling value) which Amount was charged to him in my account, in which he have received a Credit for the proceeds of the bullion transferred to the Mint

Ia/ Supt. Branch Mint,
Dahlonega.

Dear Sir Snowden Esqr
Director of the U.S. Mint
Philadelphia

Sir:

In the account of Silver Bullion of the Melter & Refiner at the Barbonija Branch Mint for the 1st Quarter 1854 he claims credit "for 1696,3 lbs Sweeps at 11½ per lb: delivered by him in the year 1853 and ordered by the Director of the Mint to be allowed as a credit to this account 0zs: 204,3821 $2357.18".

In addition to the Melter & Refiner's claimed credit for the maximum allowance of wastage in his silver operations in the year 1853 and the different wastage to make good his Gold account also

I cannot without further explanations see the propriety of the transaction and beg you will at your earliest convenience advise me on the subject

Very Respectfully
your obt Servt
J. L. Smith

Auditor

November 29, 4

Sir,

I have received your letter of the 28th inst in which you desire an explanation as to a credit to the Melter & Refiner of the Branch Mint Dahlonega in the account of Silver bullion for the 1st Quarter 1854, "for 169 6/3 lbs Sweeps at 14 c. pr lb delivered by him in 1853 and ordered by the Director of the Mint to be allowed as a credit to this A/c 23.20; 84 $ 23.48."

At the close of 1853 after the Melter & Refiner of that Branch had delivered up all the Silver bullion in his possession there was a balance against him of $302.79. The legal allowance for Wastage on the bullion delivered to him during the year was $65.31, reducing the above balance to $237.48. It appears that it had not been the practice at this Branch to credit the Melter & Refiner for the Sweeps delivered by him to the Treasurer, and therefore, and the reason he had not been credited with the Sweeps delivered by him during the year 1853. As these Sweeps had been mixed with those which have accumulated during previous years it was impossible to ascertain the precise amount of the same. The Superintendent estimated the same at 164 lbs which at 14 pr cts pr lb would yield $23.80 From the information furnished to me, I was perfectly satisfied that the Melter & Refiner was entitled to a credit for this Amount since the

Superintendent was instructed to credit
him with the same in the Settlement of his
account of Silver for 1853.

I am, Very Respectfully,
Your Obt. Servant

Coins for November
& Returns of Deposits
of Gold & Regulations
with Some observations
relative to Increase
Decrease of Monthly
expenses of the Mint

Dec 11, 1854

Branch Mint of the U.S.
Dahlonega Ga. 1st Dec. 1854

Sir —

I have the honor to forward a Report of receipts of Bullion & Coinage executed at this Branch for the month of November just closed; also Package No 11 of Coins reserved for the annual Assay, with a statement of its contents.

Yours of the 24th November, containing a statement of Dies forwarded for the use of this Branch in 1855, was received to-day; and also your letter of the 24th ultimo, covering "Regulations for the Mint, its Branches and the Assay Office".

I will take pleasure in enforcing those regulations, so far as they can be made applicable to the operations of this Establishment. As our receipts are not very heavy as regular, it will occur to you that we frequently, for several days together, have no work for the hands; and it seems to me, when this is the case, that a more economical

practice will be to require the workmen to report themselves every morning, and if there is no work for them to do, to permit them to return to their homes, than to keep them in attendance during work hours, doing nothing but, (in the present season) burning wood.

There are several other points, which, I can perceive, apply with force to such an establishment as the principal Mint - but which I do not believe you would think of putting in force if you were here and acquainted with the daily operations of this Establishment.

I make these suggestions with due deference, supposing that I am not required to enforce a regulation, which, in my opinion, will not be promotive of the public interests - I mean so far as the working operations of this Branch are concerned.

If I am mistaken in this view of my duty - I will, upon notification, require a strict conformity to the regulations prescribed.

Very Respectfully Yr. Obt. Servt.

Sir,

I have received your letter of the 8th inst. with the enclosure dated, and also a package containing the Coins reserved at your Branch during the month of November for the Annual Assay.

As regards the regulations lately enacted on the 24th ult.o and the difficulty of enforcing several particulars of the same, I have to state that the difference existing in the organization, hereby between the Mint and the Branches thereof, was fully appreciated and considered by me in preparing the same & endeavoured as far as possible to so frame them, that they could without difficulty be applied to the government of the Branches as well as the principal Mint. In view however of the facts presented in your letter, you will use your own discretion as to the attendance of the workmen at times when there is no work for them, and in all other particulars you will please enforce the regulations with as much strictness as may be consistent having due regard for the public interest, and the convenient and economical dispatch of the business of the institution under your charge.

Mint of the United States
Phila. Dec. 16th 1833.

Sir,

Your letter of the 8th inst. has been received.

The form of advice sent you was for the purpose of shewing how the 4 per cent premium on the silver parted should be added to the net value of the deposit, the charge of 5 cents per ounce for granting allowed to you in the rule at this Mint, and it was made use of in the specimen of advice to illustrate more clearly the calculations you were to make in order to dispense with the necessity of purging in silver crucibles the silver parted from the gold deposits. You will therefore adhere to the rule you have observed heretofore of charging 5 cents per ounce troy, for said granting.

The drafts you have on hand, you will send to Dr. Jos. R. Tarleton, care of Messrs. Baring & Brothers, London,

By me answering your enquiry as to being able to obtain a suitable pair of scales for your Branch, I have to request that you will let us know, what kind you wish and what limit they may be capable of weighing.

Your Advices for 1834, are ready.

Dec. 1st, 1834

2.140.57
2.974
$1.903.09

December 15, 4.

Sir,

I transmit herewith a statement of the sale of eighteen Barrels of Sweeps in London, belonging to your Branch by Messrs. Moss & Armour, Agents for the Mint Melbourne, the net proceeds of which amount to £2,110.07, which sum has been paid to me by the Treasurer of the Mint as per receipt attached to the above statement. From information hitherto furnished by you it appears that these sweeps were several years in accumulating, and that they were not regularly delivered by the Melbourne Mint, and that previous to that period no credit for the same at which time he received a credit of an amount sufficient to him his allowance for wastage within the limit allowed by law. Now as these sweeps were a part of the bullion with which he had been charged, and for which he should have been credited at least once during each year, but which not being done, except for the small amount in 1853 as above mentioned had to be covered by a sufficient allowance for wastage in the final settlement of his account. The proceeds of the same over and above the estimate of sweeps in 1853 properly belong to the Government and may be added to the Mint Bullion fund at your discretion or passed into the Treasury of the Mint. The latter course is perhaps preferable, and if for convenience you desire it to be done here I can make the transfer for you. No further steps will be taken until I hear from you on the subject. You will oblige me by stating the precise amount charged to the Treasurer and credited to the Melter & Refiner on sweeps account for 1858. This amount I will pay to your account here, or advice of which you may from the ordinary Funds at your Branch hand over an equivalent to Gold Coinage which will be charged therewith, Gold Ingots being received.

NATIONAL ARCHIVES MICROFILM PUBLICATIONS

Box 18

NATIONAL ARCHIVES MICROFILM PUBLICATIONS

To/ Elisha Whittlesey, Esq.
Comptroller,
Jany 3, 1855.

As to proper disposition of proceeds from sales of branch Mint Dahlonega &c. &c. - upon case stated.

January 31st. 05.

Sir.

In the course of many years operations there has accumulated, at the Branch Mint, Dahlonega, a considerable amount of what is technically termed "Mint sweeps"; that is a residuum of dirt, ashes, melting pots, &c, apparently valueless, but containing minute proportions of precious metal, recoverable by the operation of smelting. This sweep I directed to be sent to London for sale, as the most available means of realizing the proceeds, and the net amount derived therefrom, viz: $2,140.57 is now in my hands.

At this Mint, the Melter and Refiner's sweep is when delivered up by him is Assayed and an estimate is made of the standard bullion contained in it, with which he is credited, the Treasurer standing charged until he is reimbursed by the proceeds of sales, any deficiency being charged to "Profit and Loss". At the Dahlonega Mint I understand this course not to have been pursued, except with the sweep of last year, for which the Melter and Refiner was credited and the Treasurer charged $20,148 for this account the Treasurer's bullion fund has therefore a claim to reimbursements, from the net proceeds as above stated.

But there still remains the sum of $1903.09, unspecifying the disposition of which it is proper that I should instruct the

Superintendent. As it will ultimately be requisite, however, that this question should come before you, in the adjustment of his accounts, it appears to me that it will be more satisfactory to present the matter to you now, with a view to obtain your opinion, so that there may be no difficulty hereafter with regard to it.

At first view it appears that this sum, of $1908.09, thus fortuitously derived, is one of those profits which, under the Act of March 4, 1853, c. 97, are payable into the Treasury of the United States. Such, indeed, was my first opinion. But upon further considering the matter it would seem to be incorrect thus to dispose of these proceeds. As I have mentioned, the Melter and Refiner (and Coiner) had not been charged anything with the bullion contained in this sweep (with the single exception mentioned), although it now appears that in the course of years, the credit should have been the sum now derived, $1908.09. As a consequence of this deficiency of credit, it follows that the Wastage account in each year, had been stated at an unnecessarily large amount, and settled and adjusted on an erroneous basis. The effect of such error had been, primarily, an overcharge to the "Profit and Loss" A/c., and ultimately to the "Ordinary Account."

Upon a proper and equitable system, therefore, the ordinary account of that Branch Mint should have been $1908.09 richer by a diminution of wastage to that amount, than it is under the system which has been followed. Under such circumstances, it seems to me, that the proper disposition of that amount is, first to credit it to "Profit and Loss," and then transfer it, with the balances of that account, to the Ordinary Fund of the Branch Mint.

If you should acquiesce in this course, it will save the necessity of an appropriation to meet a deficiency of means in the current fiscal year, of about $1500., and inasmuch as, if such an appropriation should be required it will be necessary for me to request it with the least possible delay, you will oblige a favor by informing me, whether the briefest time which may be convenient, whether or not you coincide in the views which I have expressed.

I am, very respectfully,
Yours, &c.,
James Ross Snowden

James Ross Snowden Esqr.
Director of Mint.
Philadelphia

Rd Jan 15. 1855

Mr Fields Letter
Enclosed Herein

Branch Mint of the U. S.
Dahlonega Ga. 8 January 1855

Sir—

Enclosed please find Report for the Year 1854 & also monthly report for December — & several statements & reports required to be presented through you to the Treasury Department — I also forward package No 12 of Assay Coins with a statement of its contents — and an estimate for the Year.

The Report to the Secretary "of the general condition of this Institution" &c — may not be such as is contemplated by the regulations. It is general in its terms, & as a report for each month of the financial condition of the establishment had just before been required, I suppose I have met the requirement of this latter regulation. If however I have not, I will thank you to notify me thereof. After allowing the Melter & Refiner his allowance for wastage and

his Silver acct – he is still $196.88 behind.

He has nearly 1500 lbs of dumps – which are doubtless sufficient to bring up his acct but for reasons stated in a letter to me, which I forward to you, he has declined to make a formal return of them at present.

You will perceive from one of the Statements intended for the Secretary that the Mint is indebted to the Contingent Fund $1,000 – for Silver Ballion purchased in 1838 – & this amount has been reported in every Balance Sheet prepared since that time. On the present Ordinary Expenses a/c. the balance in favor of the Treasurer of the Mint is $1,079–50/.

I cannot perceive any good reason why the Mint should not pay Contingent Fund this $1,000.

Very Respectfully

Julius M Patton Esq
Supt Br Mint Dahlonega

Sir It will be remembered that for the year 1853 two samples of Sweep Bars on hand comprising the Sweep of that year and that of several other years was sent by order of the Director to the Mint in Philadelphia which proved by the assay there to be of the value of No. 1 $0.42
and No 2 " " " $0.396
Making an average of 36 cents per ℔ Now as per Reports the gross value of the same Sweep sold in London was about 51 cents per ℔ and by the assay from the same Sweep here only produced about 16 cents per ℔ I regard it impossible to make a correct assay of Sweep here for the reasons 1st that we cannot get a sufficient high degree of heat to make the Sweep Bars enough from Char-coal being no Stone coal
2nd that our Chimnies are not high enough to make sufficient heat

being only done 40 feet in length

Respectfully

Dahlonega

Samples of Gold Ores
received, but not Assay'd

Assays of Specimens
of Ores will be entrusted

May 24. 1837.

Mint of the United States,

Philadelphia, January 15th 1857

Sir,

I have received your letter of the inst with the enclosures stated & also a package containing the coins issued at your Branch during the month of December for the Annual Assay.

The Reports you have presented as required by the General Regulations lately prescribed for the Government of your institution are Satisfactory.

The Sweeps referred to in your letter should be thoroughly mixed and a sample of the same sent to this Mint for assay, in this way an estimate can be made of the value of the Amount in the hands of the Melter & Refiner. After which the Sweeps may then be delivered to You by that officer & he can receive a credit with him for the value, as determined by an estimate based on the results of the Assay of the Samples sent to this Mint.

With regard to the Stove

With regard to the $1000 worth of Silver now in the refinery and purchased, as I understand, by the Ordinary Fund, I agree with you that the value thereof should be restored to that fund. This may be done in ~~two~~ several ways. Either a draft might be obtained ~~upon London~~ in favor of your Bullion fund for $1000, the proceeds of which can reimburse the ordinary fund, from which time this Silver will belong to the Bullion fund as it properly should; or else, if you can part with the Silver from the refinery, the amount could be realized by receipts here, and then restored permanently to the ordinary fund.

Ranch Mint Dahlonega
16th January 1854

Sir –

John C. Field & Co. our Melter & Refiner, this day forwards to you two samples of his assays for last year.

No 2 — — — — — sifted.

It is necessary to keep them separate.

There being considerable research in this section of country for several of the minerals, it frequently occurs that persons apply to us to make some test of ores which, when the furnaces are heated up in the business of the Mint, can be done with very little expense or trouble – and the practice here, as I am informed, for several years, has been to expend their ores to the assay of fire touch, when it could be done without preparing expressly for that business. The applicants would willingly pay a small fee for such services – as there is no other place in all this region of country where they can be a satisfactory test made.

It seems to me that one of the late Regulations prohibits this thing - it says - "no private or extra-official work can be done with or without compensation or demand by any officer clerk or workman".

My excuse for calling your attention to this small matter is that the regulation prohibits us strictly from making any such [illegible] as they sought to and the refusal to do so will produce much dissatisfaction with the applicants and they will charge us with the want of a spirit of accommodation &c. This would not probably be more than a dozen applications during a year.

Very Respectfully
Your obt Servt
J. M. Patton
Supdt

James Ross Snowden Esqr
Director of Mint
Philadelphia

May 25. 5.

Sir,

Your letter of 16th January last was duly received, and I had acted for reply until the Vouchers of Pay stated to have been forwarded to this Office on that day should arrive. They have not yet been received, and it is fair to infer that they have been lost in transmission.

In regard to the subject treating specimens of Ores &c for the Branch, referred to in the above letter, I have to state that, in view of the reasons presented by you, it will be well to continue to make incidental tests of this kind as have been your custom heretofore, on such terms as you may think proper. I would suggest however, that no charge should be made for the Ores, unless it be to remunerate the Mint for materials.

I am, very Respectfully,
Your Obt. Servt.
James Ross Snowden.

Hon James Guthrie
Secretary of the Treasury
Sir;

I beg leave to enclose herewith a letter to this Office by James Ross Snowden Esq Director of the United States Mint, in reference to the proceeds of "Sweeps" that had accumulated at the mint at Dahlonega during several years past.

The question presented by the Director is whether the proceeds of said Sweeps are legally payable into the United States Treasury under the provisions of the Mint Law of 3d March 1837, as profits, or to be transferred to reimburse the Advancing Expense account in as much as that amount was called upon at the close of each of said years to pay the wastage of the Coiner and Melter and Refiner, in whose hands said sweeps accumulated, and who would have been legally entitled to credit for their value in the annual settlement of their accounts, had the proper system of account

=cability of those officers been observed.-

The result of a failure to credit the value of said sweeps in closing the accounts of those officers was to increase the amount of their wastage (not however beyond the limits prescribed by the act of 18 Jan. 1837) and consequently to take the ordinary expense account the amount of their value more than was proper.- The Bullion and Ordinary accounts for those years having however been closed, I am of opinion that the first view of the subject taken by the Director is the ~~right~~ correct one, and that the sum thus accumulated be paid into the Treasury as profits to the credit of Miscellaneous Receipts more particularly for the reasons expressed in your letter to the Director of the Mint under date of 26. October last, in regard to the proceeds of Silver Bullion transferred to Philadelphia from this Branch Mint should the sum specified in the last clause of the Director's letter be required I beg leave to suggest that the same be drawn from the balance of appropriations standing to the credit of the Ordinary Expense Account of that Branch, on the Books of the Treasury.- Very Respectfully

February 6, 1855.

Sir,

I have to acknowledge the receipt of your letter of the 29th ult: with the inclosure stated. In compliance with your decision as to the proper disposition of the proceeds arising from the sale of the Dumps of the Dahlonega Branch Mint, I have paid into the Office of the Asst Treasr U.S. at Philada as a miscellaneous receipt, the sum of $8,905.09, being the net proceeds of the above Dumps with the exception of $257.48, the amount for which the Melter & Refiner of that Branch reamd a credit on Dumps account for 1853, and for which the Treasurer was charged. To avoid confusion in their accounts it will be necessary to return this amount ($257.48) to the Treasurer, to be passed by him to the credit of "Gold & Bullion - changing Gold Coinage thereinto." I inclose the Asst Treasr certificate of the receipt of the above Amount.

It has been customary for the Auditor and Comptroller to address this Office respecting accounts, &c, at the Branch Mints - in this way I was induced to write to the Comptroller as to the above Dumps. Hereafter all such communications will be addressed to the Head of the Department.

I have the honor to be,
With great respect,
Your faithful Servant,
James Ross Snowden

Philadelphia, February 5, 1855.

Sir,

I received on the 30th ult.o a letter from the Secretary of the Treasury enclosing a copy of a letter ~~what Officer~~ from the Comptroller on the Subject of the disposition of the proceeds arising from the Sale of the Sweeps of Your Branch, a copy of which I herewith enclose, ~~I have to ask your attention~~ ~~by Cato's receipt that from the~~ ~~to the concluding paragraph of the same referring to the balance~~ ~~year of your Treasury of the Mint, which it was~~ ~~of Appropriations standing to the credit of same Accounts~~ ~~appears to have been paid over to the Department~~ ~~of that Branch on the Books of the Treasury~~

The Secretary in enclosing a copy of the Comptrollers ~~in accordance with the Opinion~~ letter states that it is the Opinion of the Department that the Whole Amount realized from the ~~Assay of the~~ Sweeps should as recommended by the Comptroller, be paid into the Treasury as a Miscellaneous receipt. In compliance with this decision I have paid into the Office of the Ass.t Treas.r U. S. at Phil.a the Sum of $1,903.09 being the proceeds of said Sweeps, with the exception of $237.48 the Amount for which Your Melter & Refiner received a credit on Sweep Account in 1853 & for which You were charged. This Amount will be disposed of as indicated in my letter to you of the 18th December last. When advised of this disposition You will make the entries specified in the letter just referred to.

I enclose the Ass.t Treas.r certificate

of the receipt of the before stated sum.

I am very Respectfully

Act for a Second Assay
& result thereof of
Dahlonega Gold
&c &c

Feb 14, 1855

Mint of the United States,

Philadelphia, Feb 14th 1855

Sir,

In reference to the proceedings of our annual Assay, the result of which I advised you in my letter of yesterday, I am requested by the Assayer of the Mint to state, that in consequence of the low report upon the gold of the Dahlonega Branch Mint and the tinge of iridosmium which was observable on the Assay Cornets, he was induced twice to repeat the assay thrice and finds, instead of 898.6 thousandths, the fineness of 899.5 thousandths. The records of course cannot be amended, but I would suggest that as it has not been usual to publish these proceedings, such publication, if contemplated had better be withheld in justice to that branch Mint, unless it be to report the general proceedings and resolution of the Commissioners, as stated in my letter, without the explanation in the letter which accompanies it. That the whole Coinage of the year 1854 of the Mint and its branches were found satisfactory.

I have the honor to be
with great respect
Your most obedient

Hon. J. Guthrie
Sec of the Treasury

March 7. 8.

Sir,

The trial made by the Assay Commissioners on the 12th ult. of the reserved coins of your mint for the year 1804 resulted as follows viz: the coins were required as $600 in value: the legal weight was therefore 32.519: the actual weight was found to be 3 thousandth in excess. The fineness of the bar from the melt of the coins was 898.6 thousandths being 1.4 below the legal standard but within the limits allowed by law, and the trial was therefore sanctioned and reported as satisfactory. In consequence of the low report upon the fineness of your coins as above stated, and the traces of iridium which was observable in the assay cornet, the Assayer of the Mint was ordered subsequently to repeat the Assay twice and found instead of 898.6 thousandths the fineness of 899.3 thousandths. The second could not be allowed corrected but the subject was in justice to your Branch explained to the Secretary of the Treasury in a communication from me to that Officer under date of the 19th ult.

I have passed to your credit in my A/c current the proceeds of your Assay coins for 1834, viz: $600. also $207.48 the amount for which your Melter & Refiner received a credit on Deposit A/c in 1803, and retained by me out of the proceeds arising from the sale of your Deposits. The proper disposition of this amount was fully explained in my letter of 18th December last. These two items amounting to $842.48 added to the balance previously due ($266.52) gives $1,109.00 as the Amount standing to your credit in the before mentioned A/c

J. M. P.

March 26. 5.

Sir,

I have received your letter of the 07th inst. The Samples of Brass stated therein have been forwarded by you have not been received.

As regards the process of separating rhodium & osmiridium from gold, I have to remark that it is first separated from melted metal by subsidence and afterwards purified by chemical treatment. It cannot be separated in melting deposits, because it is desirable to pour every trace of metal out of the crucible for the benefit of the depositor. The practice at this Mint may be briefly stated as follows.

When the gold and silver for granulations are melted together, and stirred, the iridium is dispersed through the whole mass, but the act of granulating continuing for some time a portion separates to the bottom, and hence we do not dip closely, but allow some metal to remain in the pot. These residues are collected, melted together in one pot, and after being allowed to settle for a time, the metal is poured off, and the iridium left behind. Many of the last residues are after several melts not longer collected and again treated with silver by heat, and this last residue, treated chemically to separate the precious metals from the iridium.

2. That portion of iridium which does not dissolve in the glass-making spot, remains with the gold under refining, when in the first or lengthening operation with copper, it is allowed to remain for a short time, and the greater part of the metal being lost, the residues are collected, melted and thereby as before (1) the Assayer reports its presence in the weights they are again melted, annealed to shell &c.;

3. The finely divided residues, first treated in porcelain or glass with nitric acid, to extract silver, and after being thoroughly washed, are next treated with nitromuriatic acid to dissolve gold. The clear solution is poured off, and water being twice put on and poured off, these gold solutions are precipitated with copperas to recover gold. The residue (after pouring off gold solutions) is treated with gentle heat with chloride of silver. After thorough washing the reduced silver is dissolved out by nitric acid and the residue well washed off all dissolved silver. This residue is again treated with nitromuriatic acid to recover the last traces of gold, and the solution reduced as before.

4. The iridic osmium now remains impure. To purify it, it is fused in an iron pot with alkaline caustic potash & saltpeter (or better chlorate of potassa) extracted by water & then by muriatic acid, together with a little nitromuriatic, which leaves the native

alloy nearly pure.

James Ross Snowden Esq
Director of the U.S. Mint
Philadelphia

Sir:

In the adjustment of the Bullion account of J. M. Patton, Treasurer of the Dahlonega Branch Mint for the 1st Qr: 1855, he is charged with the proceeds of Sweeps shipped to London in the year 1854 amounting to the sum of £2040.17/100 and credited by part of the proceeds of said Sweeps paid into the Treasury of the United States by yourself, amounting to £1903.09/100 This appears from the books transmitted and the Profit & Loss account and as no explanation is given showing how the amount last mentioned is arrived at, I will thank you for such information as will explain it.

I am under the impression that this transaction should flow through the "Bullion deposit Profit & Loss account," the items of that account under the laws being payable into the Treasury under the head of Profits when the "Profit & Loss acc" wherein he has debited

and credited the sums aforesaid is reconciled in connection with the ordinary Expense &c—

I will be glad to have your views on this subject and also your opinion as to what are the proper items entering into these accounts respectively with reference to the Branches at Charlotte and Dahlonega

Very Respectfully
Your obt. svt.
J. L. Smith

Auditor

1st. Auditor.

May 5th. /55.

Discrepancy between charge and credit for proceeds of troops in the Dahlonega Mint &c. explained.

Mint of the United States
Phila. May 5, 1855.

Sir,

I have to acknowledge your favor of the 3d inst.

As regards the difference between the amount charged to the Treasurer of the French Mint Dahlonega, viz. $2.140.57 being the proceeds of the sale of the Sweeps of said Mint shipped in 1854, and the amount of the same paid into the Treasury of the U.S. viz: $1,903.09, I have to state, that these Sweeps were of several years accumulation, having never been regularly delivered by the Melter & Refiner, who previous to the year 1853 had not received any credit for the same. In that year however he was credited with the sum of $237.48 the estimated value of Sweeps delivered during that year, which amount, was necessary to bring his allowance for Wastage within the limit of law. The Treasurer having thus been charged with the amount thus credited to the Melter & Refiner the same was returned to him out of the above proceeds and constitutes the difference between his debit & credit as stated in the letter.

With regard to your suggestion that this transaction should first through the Bullion Deposit Profit & Loss Account, I have to remark that the latter account was designed only to embrace the half per cent for coinage authorized by the act of February 21st 1853. It would perhaps be convenient to include with the same account such profits as under the act of 4th March 1857 may be payable into the Treasury. I may also, however, that in ordinary circumstances there are no profits of this kind, except those on copper coinage at this Mint. The profits arising from this last source are most conveniently accounted for in the Upperadem It was only by oversight that the charge at the Dahlonega Mint ceased to the Government as a profit, owing to the fact that in shifting the Melter & Refiners account from time to time the charge (with the exception before stated) was left unadjusted & remained to accumulate in the Treasurer hands. The proceeds subsequently received were consequently a profit and as such payable to the Treasury of the Mint. This error will be corrected in future, the charge being credited to the Melter & Refiner, and charged to the Treasurer as bullion, thus operating to diminish the wastage

account. When sold the net proceeds will be charged to Gold Coinage, and Gold Bullion credited.

I am, Very Respectfully,

T. L. Smith, Esqr.,
First Auditor

Sir.

I have acknowledged the receipt of your letter of the 1st inst. with the enclosures stated, and also the Coins selected during April at your Branch for the Annual Assay.

The letter forwarding the Coins selected in March and enclosing the reports for that month was duly received. I delayed replying to it until I could institute an examination in the Office with your Branch, the result of which is communicated to you in mine of the 3d inst.

Very respectfully,
Yours &c.

Jamm Ross Snowden.

Statement of a/c dated
on 3d inst: agrees with
his
Enclosing letter
from Act. Treas. Bd.
respecting Bullion
a/c.

May 21, 63

Branch Mint Dahlonega
14th May 1855

Sir —

I have received yours of the 3rd Inst. with the receipts of Mezzey & Moore & Cooper & also a statement of my a/c — shewing a balance on my favor of $1.039.63 — which agrees with my a/c.

I enclose an extract of a letter received a few days since from Wm B. Randolph Esq. acting Treasurer of the U.S.

From it you will perceive that he refuses to admit as items of the U.S. Bullion a/c, the amounts which I have transferred to it from time to time, under your instructions.

That Officer has been a considerable time in entering his objections, as the first transfer was made 31st July 1854.

The Balance to the credit of U.S. Bullion a/c 1st July 1853 was $26.850 — & from that time to 1st Jany 1855, was increased by transfers from Bullion deposit Profit & Loss & Profit & Loss a/c $3.700.03 — making the balance then $30.550.03 —

The other sum of $1,000. which Mr Randolph says ought to be disposed of, is the $1,000 paid out of the Contingent Fund in 1838 in the purchase of Silver Bullion for refining purposes.

I have, as he suggested, submitted a statement to the Secretary of the Treasury in reference to the matter.

Very Respectfully
Your Obt. Servt.

R. M. Patton
Supdt

James Ross Snowden Esqr.
Director of Mint
Philadelphia

(Extract.)

Treasury of the U. States
May 4th 1855

Julius M. Pattow Esqr.
Supt the Oakland Ga. Mint
Sir —

xxxxxxxxxxxxxxxxxxxx

You are charged on our books with $26.850 being the original amt transferred to the Bullion Off at Oakland, less $3.150 drawn for & paid in September 1846 — & have a provisional credit for the $1.000 drawn for in January, which credit will now be confirmed, when you send us a statement to correspond.

The Money transferred to your office for the purchase of Bullion, was Money in the Treasury at the time of transfer, and it is still in the Treasury, but for a specific purpose & cannot properly be increased by a deposit of money which is to be covered (charged) into the Treasury. Hence the $3.711.03/100 cannot be added to our Off under present circumstances. But as that and another sum of $1.000 — ought to be disbursed of correctly

I suggest that you make a special statement of these items, in appropriate details, to the Secretary of the Treasury, that they may be considered & disposed of

Very Respectfully
(Signed) Wm. B. Randolph
Actg. Dirt.

Branch Mint Dahlonega
12th June 1855

Sir —

From the letter of Wm. B. Randolph, acting Treasurer of the U.S. an extract from which I forwarded to you some time since, it was thought he could not consider a transfer by one branch of Bullion deposit Profit & Loss a/c to the U.S. Bullion a/c, as a payment into the Treasury of the U.S.

The matter referred to in his letter (loan, however, has arranged by the opening of a transfer draught.

Shall I at the close of the present quarter transfer to U.S. Bullion a/c, the balance standing to the credit of Bullion deposit Profit Loss a/c is instructed to do last year?

Very Respectfully

J. R. Snowden Esqr
Director &c

J. M. Pettis
Supdt

June 20. 6

Sir,

I have to acknowledge your favor of the 20th inst.

In reply to your enquiry as to the disposition to be made at the close of the present quarter of the balance standing to the credit of "Bullion deposit Profit & loss Account", I have to state that, on view of the decision of the Treasurer of the U.S. upon to in your letter, it will not be advisable to transfer the above balance to "U.S. Bullion Account", but to let it stand to the credit of "Bullion deposit Profit & loss a/c". This balance will be subject to the order of the Treasurer of the U.S., until when you will therefore please inform that Officer, at the close of the present quarter, of the Amount standing to the credit of Bullion deposit Profit & loss Account.

The employés Statement of Accounts shows a balance due them of $2,009.60. Since then I have paid to Lemuel W. the sum of $900.00, which reduces said balance to $1,109.60. The certificate bills of Lemuel W. are not yet handed.

We have as early as possible to dispose of our Drafts at the Mint on satisfactory terms and thus avoid the risk and expense of shipments to Europe.

I would be glad to be informed of the
quantity of Stamps you have on hand, and your
opinion as to the best manner of disposing of
them. I may state that as the Farmers engaged
to take over no consignments to their agents
from Boston or New York of Stamps shipped to us
could hardly expect them to take charge of the
small amount you may have on hand. In your
reply you may state how much it would
cost to deliver the Stamps at New York or Phila-
delphia. You will observe by the report of
the Assayer which I enclose that your Stamps
are of a low value per lb.

Yours Respectfully
Thos. Ashe Hamilton.

Branch Mint of the U. S.
Dahlonega Ga. 1st Dec 1855

Sir —

I have the honor to enclose my report of the receipts of Bullion for the month of June just closed — together with the reports for the Secretary of the Treasury — I also forward Package No 6 — containing the Coins received for the annual assay during the month just passed.

As to the disposition of our Coins, in answer to your last letter, I have to state that we cannot dispose of them here in this section for anything approximating their value — and I think we had better try to put them off in the way you did Eagles at Philadelphia.

There is about one thousand pounds on hand — and it would not cost, I think, more than $25, to deliver them in your city or New York. (Geo. Pendleton Esq. Gr. Asst. Treas't)

January 1855

Branch Mint of the U.S.
Dahlonega Ga. 25th Dec. 1854

Sir—

Your two letters of the 18th inst. were receivd to-day.

If it be determined that the proceeds of the Mint Drafts shipped to London, shall be paid into the Treasury of the United States, I will thank you to make the transfer as you suggest.

The amount with which the Melter & Refiner was credited on his Silver af. for the returns of Drafts last year was $237.48

I had hoped that I would be permitted (the value of the Drafts)
to use this amount, as the proceeds of a former shipment in 1847 were used — that is by transferring it to the ordinary Expense af.

Perceiving shortly after I came to this Office, that, in consequence of the increased expenses in account of the increase of refining required, that the appropriation for Refining would be insufficient, I com-

as you will recollect, that an additional amount be asked for in the Deficiency Bill of the last Session of Congress.

You inquired, if I was permitted to transfer from Profit & Loss to the ordinary expense acct - whether or not the appropriation would be needed - and when I informed you that with that permission it would not be needed - You then instructed me to make that transfer of an amount sufficient to cover the incurred expense. The Treasury Department did not allow the transfer - and the consequence is that the ordinary Expense acct is indebted to the Mint $1.513.08¢. With the proceeds of these sweeps I had hoped to pay the Mint this balance and make some repairs to the Fencing around the Mint incurred, which are very much needed. The fence around the Mint building and the garden is the one first placed here & as a matter of course is pretty well worn out, and a new one needed.

When I came here, I found no water on the premises except the well in the building used for the supply of the Engine.

I had a well sunk, & at this time last year it furnished a good supply of water — but now, owing to the excessive drouth, it is dry.

It has occurred to me that this last well ought to be sunk deeper & a chain pump placed in it — otherwise we are almost powerless in the event of fire — as the well in the building has a plunger worked by the Engine, & we could not obtain any water from it until steam could be got up — & consequently would be useless in case of fire. We have a cistern to collect water when it rains — but that has failed us this season — and the Engine well, which ordinarily furnishes any quantity of water, is so low at present that we can barely get a sufficiency of water from it to carry on the current work.

I notice, from the Books of this Office, that the practice has always heretofore prevailed to transfer the balances from Profit & Loss to the Ordinary Expense a/c. as you directed me to do.

I enclose a copy, as you request, of the rate

of charges to be made on gold deposited which I found in an old Book of instructions furnished at the organization of this Branch.

I am preparing a ~~general~~ statement of the operations of this Branch for the present year, which will be forwarded to you as soon as possible after the 1st of January.

Very Respectfully
Your obt. Servt.

Philadelphia

(Copy)

"The laws and usages of the Mint in respect to deductions from the value of Gold deposits for preparatory expenses.

The Assayer judges whether any deduction should be made upon the deposit and certifies the Treasurer in each case by writing in pencil upon his report.

The charges on Gold deposits are four, viz:

1st For toughening when the metal is too brittle and is above 900.

2nd " For refining when below 900.

3rd " For Silver alloy (now abolished)

4th " — Copper do.

5th " For parting Silver.

In the first case the charge is 1 cent per ounce troy weight.

In the 2nd case the charge is 1 cent per ounce troy; but this charge is not made where the alloy is chiefly an

wholly silver, and where that silver is not separated for the benefit of the depositor.

But if the alloy be in any considerable degree copper or other base metal the charge is made.

In the 3rd case the charge is 12½ cents per ounce of silver alloy required; this charge is only made when the silver alloy already present in the metal falls below 25 Millièmes.

To explain this it must be noted that the typothesis of our Gold coin is:

Fine Gold	900
Fine Silver	25
Copper	75
	1000

(This charge can only rarely if ever be made and

In the 4th Case the charge is 3 cents per ounce of alloy. This is made whenever the fineness is over 900 and under 975.

(Under the present typothesis I have made the charge whenever the metal was over 900, provided the charge would amount to 10 cents.)

In the 5th case the charge is 12 cents per

ounce gross. Silver is not purchased for the benefit of the depositor unless it amounts to $5. after all expenses for parting and allowances for silver alloy.

No charge is made in any case if it does not amount to ten cents. The depositor is not charged for assaying where that process is made for the benefit of the Mint."

The amount accruing to this Branch from these charges is a mere trifle annually — and I do not perceive that there is any necessity for suggesting a change.

Branch Mint of the U. S.
Dahlonega Ga. 5th January 1856.

Sir —

I have the honor to forward monthly report for December & Summary Statement of the operations of this Branch for 1855 — also Package No 12 of reserved Coins, and the required reports for the Secretary of the Treasury.

I have not heard from the Box of dies since the receipt of Mr Leiderman's letter dated 13th December — I will write by next mail to an agent of Adams Co's at Atlanta & endeavor to have it forwarded.

We are greatly troubled for Silver change, & I think, when you forward the Dollardies, it might be safe to send say $500 in the same way — say $200. each Halves & quarters & $100 — of Dimes.

In sending the next box of dies by Express, please to have it addressed to the care of the agent Dahlonega Express Line at Marietta, Ga — and then I think it will

come through without much detention.

You will please urge the Manufacturers to let us have the Rolls as early as possible — the Coiner says he cannot make dollars at all with the last ones we got.

You will please order one box of Capsules to be forwarded.

Very Respectfully
Your obt. Servt

Branch Mint of the United States.
Dahlonega Ga. 31st. March 1856.

Sir,

In answer to your favor of the 19th. Inst. asking a Report as to the expenses attending the refining of gold bullion at this Branch, I have to say that I have found it impossible to make an accurate estimate, as the operations are so much mixed up with the Melting, assaying and Coining, but I have endeavored to make an approximation to accuracy to accuracy, and think the conclusions to which I have come may be relied on as sufficient accurate for the purpose for which it is desired.

The expense of refining is greatly increased at this point, by the freight upon the acids, for transporting which the Rail Road charges are excessive.

Refining for 1855 Dr

To Nitric & Sulphuric Acid used	$400.00
Salts, Zinc, Coal, tubs & Repairs of Vessels	100.00
Wages of hands	180.00
Wastage of Gold $21.82 Wastage of Silver $228.12	249.94
	$939.94

Cr.

By Silver obtained & charges for Copper alloy	561.94
Supposed value of Sweep	200.00
	761.94

This Statement shews that the expenses exceeded the value of the Silver obtained and the amount of the charges for Copper alloy & $178.00

The value of Gold Bullion received and refined during the year was $116.662.00 weighing 6.161 25/100 ounces. The Charge of 12 cents per ounce, when the silver is parted for the Depositor together with the

estimated value of the Mint Sweeps would have been about equal to the expenses; — but there was no case during the last year in which the Depositor was entitled to be paid for Silver and consequently the parting was all done for the Mint.

I have also made an estimate of the Expense of Refining for the years 1853, 1854 & 1855 — and it appears that the statement will be as follows:

Expense of Refining for 1853, 1854 & 1855 & the Wastage of Gold & Silver		$5.700
By Silver obtained for Mint & Charges for Copper &c.	$4.050	
" Estimated value of Mint Sweeps for 3 years	750	4.800
Excess of expenses		900

The value of gold received in the 3 years is $649.177.28 = weighing 35.467 Troy oz.

From these two results it seems that the Silver obtained and Charges made leave a small amount of expenses unpaid each year in the refining operation; — and an additional charge of about ⅞ of one per cent would be required upon the value of the gold bullion deposited to meet the entire expense incurred in refining. It is proper to remark that the wastage of Gold for 1854, though within the limit allowed the Melter and Refiner by law, was much greater than has been usual here.

Our suspicions were excited against a hand then in the employ of the Mint — but as I possessed no satisfactory or convincing proof of his malfeasance, I could only dismiss him, which was done at the close of that year.

We have no hands employed alone in that operation; — it is conducted principally by the hand who is the principal in the Coining Department, aided in both operations by the Melter of Deposits and the Assayer's assistant as they may be disengaged.

Four hands only are now employed — the services of a fifth having been

dispensed with 1st January 1855. I am not prepared to recommend any further reduction. The compensation to hands fixed at the organization of this branch, & which has remained unchanged, was $60 per month. The design of fixing the compensation so remunerative, doubtless was to enable the Superintendent to procure the services of men of undoubted reliability. Living in this section is more expensive now than it was some years since and as there is no prospect that it will become cheaper, I cannot recommend any reduction. Any number of men might be employed at a lower rate, but in the end it might cost the Government more than it does at the present rate.

I hope this statement, though necessarily, may be satisfactory

Very Respectfully
Yr. obt. Servt.
(signed) J. M. Patton
Supt.

James Ross Snowden Esq.

Philada

(Copy.)

The laws and usages of the Mint, in respect to deductions from the value of Gold deposits for preparatory expenses.

The Assayer judges whether any charges should be made upon the deposite, and notifies the Treasurer in each case by writing in pencil upon his report. The charges on Gold deposits are five, viz:

1. For Toughening when the Metal is too brittle and is above 900.
2. For Refining when below 900
3. For Silver Alloy
4. For Copper Alloy
5. For Parting Silver

In the first case the charge is 1 cent per ounce gross weight.
In the second case the charge is one cent per ounce gross; but this charge is not made when the Alloy is chiefly or wholly Silver and when that Silver is not separated for the benefit of the Depositor. But if the alloy be in any considerable degree Copper or other base Metal the charge is made.
In the 3rd Case the Charge is 1.29 cents per oz. of Silver alloy required.
In the 4th Case the charge is 3 cents per ounce of Alloy—this is made whenever the fineness is over 900. and under 975.
In the 5th case the charge is 12 cents per ounce gross
No Charge is made in any case if it does not amount to 10 cents.

Sir

I have the honor of the 12th inst with the accounts stated & settled.

The letter of the Secretary of the Treasury requesting the settlement of accounts from the Journals of the proceedings of the Senate, & House of Representatives, & from the Library Committee, & the Commissioners of the Public Buildings, & allowing Mr Peale, for painting a transparency of the Capitol, to be lighted on the 8th of January, the anniversary of the Battle of New Orleans, that the sum of $ 1000 be paid to the Secretary of the Senate & Clerk of the House of Representatives, for the purchase of the Debates of Congress, & that the Secretary of the Senate be authorized to procure the Journals of the Convention of 1787. Shall be laid before the Committee, & that the printed Journals & Laws be committed to you. The Letter respecting the appointment of Commissioners, & Surveyors of the Public Lands, & the Letter from the Secretary of War, relative to the Fortifications, & Ordnance, shall be attended to.

I am, Sir, with great respect,
Your most obedient humble servant
James Ross
Chairman of the Committee
on the Public Buildings

Copy.

Treasury Department
May 2nd 1856

Sir —

You are authorized to consider the Bullion accounts of the Mint as excepted from the regulations of the 15th for the present — and until the Department can fully investigate the subject.

I am very Respy.
Yr. obt. Servt.

Mint of the United States.

Philadelphia, July 21, 1856.

Dear Sir,

Col Snowden returned from the Eastward on Saturday & reports Boyd as "all right". As the Col goes to Washington to morrow & will see you then You will have an opportunity of hearing of his examination &c in Luzerne

23d July 6.

Sir.

Your draft on me for $186.90. was presented this morning and I regret to say that I had to decline paying it on account of our ordinary fund being exhausted.

The Bills made by you in March last (on my own) were for the Branch Mint Dahlonega, against which You will please make out your Bills for the same, and transmit it to me. It will be paid on presentation, or You may draw on me for the amount a day or two after You have transmitted the receipted bills.

Payment cannot be made for the rolls made recently by You for this Mint until after Congress passes the appropriation bills. In the meantime, however, You may have the receipted duplicate bills for the same, and I will pay the Amount due as soon as the Mint receives any Funds.

Sir

Yours of 23d July was duly rec'd and I am sorry that I put you to so much trouble as I would not have drawn on you if I knew that you were not prepared to meet the draft. Most of you would have the less trouble to pay the whole amt at once - you have enclosed forms of Receipts for me to sign and send on and instruct me to draw on you for amt of March 27/56 for Brandt Mont & Co.

In compliance send enclosed a receipt for amt of the same $56.75/100 and have drawn on you a few days for the same and when Congress makes appropriation I will send you a receipt in form for amt of Bill of July 11/56 being $60.70/100 in the mean time you have had an opportunity to test My Chalk Rolls and if you should need any more please order and I will attend to see that they will be promptly attended to

With respect

Capt. R. B. Mason
Dahlonega

Disposition of
Revenues of Mines
1854

Sept. 19, 1855.

U. S. Branch Mint
Dahlonega Ga.
11th Sept. 1854.

Sir —

Your favor of the 5th Inst. has been received. I enclose an estimate of expenses for the year ending 30th June 1855 as requested. Some repairs will have to be made before long to the Mint building & also to the coal buildings; hence the amount for incidental expenses is larger than would otherwise be required.

In answer to your inquiry in reference to the 4 barrels of Sweeps returned for 1854 & recently sold by you, I have to state, that at the close of the year 1854, The Melter & Refiner having returned all the bullion in his hands, had a balance against him in his a/c for Silver of $196.88 after making him the legal allowance for wastage — that he afterwards returned the sweeps accumulated in the year 1854, & I credited his a/c for Silver that amount

that is $196.81 & charged the same to Profit & Loss agt in reading when the proceeds were received to credit Profit & Loss therewith & charge myself in gold Coinage agt.

Very Respectfully
Yr. obt. Servt.

J. M. Patton
Supt.

James Ross Snowden Esqr
Director of Mint
Philadelphia

September 1834

Sir,

I have to acknowledge your favor of the 11th inst. with the enclosure relative to the application of the proceeds of your stamps for 1834. I shall be glad if the same measure by you can be carried into effect. But as we have kept open Your Account and charged with the Amount credited to the Mails & Yours are all your grants for that year have probably been closed, the question will be how this be done without creating some confusion in Your Accounts.

In connection with this subject I beg leave to call your attention to a copy of a Min of the First Comptroller to the Secretary of the Treasury enclosed in My Letter to You of the 8th February 1833 respecting the disposition of the proceeds of

the Chief which have accumulated at
Your branch prior to 1845. The ruling
of the Department in that case would
seem to require a similar disposition of
the proceeds in question.

Very respectfully,
Your Obt Svt

To Sec Treasury

Transmit
January report from
Br. Mont Dahlmyer

Feb. 11. 1857

Mint of the United States.

Philadelphia, Feby. 10th, 1857.

Sir:

I herewith transmit the usual Monthly report of the Superintendent of the branch Mint at Dahlonega, for the Month of January (ultimo)

I have the honor to be,
With great respect.
Your faithful Servant:
James Ross Snowden.
Director.

Hon: James Guthrie,
Secretary of the Treasury.

To Sec Treasury

Transmitting Certificate of Assay Commissioners as to comparability in weight of Coins of Br. Mint & Dahlonega.

Feb 12, 1837

Mint of the United States,
Philadelphia, February 16th 1837.

Sir:

In transmitting the enclosed Communication and required by the Board of Assay Commissioners, it may be proper to state, for the information of the President and of the Department, that the value of the several in the weight of the coins therein referred to, are as follows:

1 Half Eagle	5/100	of a grain above the legal weight	=	.25 of a cent
1 do.	5/100	below	=	.25
1 Gold dollar	8/100	above	=	.40
do.	8/100	below	=	.40

It will be seen that the variance is as much above as below the legal standard; and that the two pieces of each denomination, if weighed together, would be correct in weight, and in like manner the five pieces produce a similar result. But as the trial exhibited an irregular adjustment of the individual pieces, the fact is certified by the Board, for the decision of the President.

I have the honor to be,
With great respect,
Your faithful Servant:

James Ross Snowden.
Director of Mint.

Hon: James Guthrie,
Secretary of the Treasury,
Washington City.

Mint of the United States,
Philadelphia, February 10th, 1807.

Sir:

The Commissioners appointed for the purpose of making the annual trial of the gold and silver coins coined at the Mint of the United States and its branches under the provisions of the act of the 18th Jan., 1837, met at the Mint on Monday, the 9th of February, 1807.

The following commissioners were present, namely, the Hon. John N. Dana, Judge of the District Court of the United States for the eastern district of Penn.a and Charles Brown, Esq.r, Collector of the Port of Philadelphia, they being commissioners ex officio, and Dr. A. D. Bache, of Boston, Hon. Abbott Lawrence, of Mass.a, Maj. A. M. Bowman, U. S. Army, and Prof. Dorsted Mappin, of Virginia, commissioners specially designated by the President of the U. S. The commissioners absent were Edmund J. Randolph, Esq. Attorney of the U. S. for the Eastern District of Penn.a, a commissioner ex officio, and Prof. Alexander Dallas Bache, of Penn.a, a commissioner specially designated.

A quorum being present the Commissioners proceeded to the discharge of the duties assigned them; and having completed the tests and trials required by law, the following resolutions were unanimously adopted, viz:

"That the examination of the gold and silver coins of the Mint and the branches for the year 1836, as to their fineness, assortment and the results highly satisfactory, except as to the standard gold dollars, the coins of which are above and are below the limits allowed by law as appears in the report of the Committee on weighing, as follows: one half eagle $\frac{1}{100}$ of a grain below the deviation allowed by law, one half eagle $\frac{1}{100}$ of a grain above the same deviation, one gold dollar $\frac{1}{100}$ of a grain below the deviation allowed by law, the other $\frac{1}{100}$ above the same deviation. The Commissioners recommend, therefore, that steps should be taken to exhibit to the President of the United States an application

with the 32d Section of the act of 18 January, 1837."

The record embracing the foregoing resolution is signed by all the Commissioners present, and the same is herewith certified to the President of the United States in accordance with their direction.

I have the honor to be, Sir
With great respect
Your most obt servant
James Rose Saunders.
Secretary
Board

To the
President of the United States.

FEB.—1857.

To Supt. branch Mint at
Dahlonega

Feb. 18th 54

Report of the Annual Assay of the Gold Coins assayed at this branch during 1853 and requiring an explanation of the irregularities in the weights found of the pieces.

Mint of the United States:
Philadelphia, 6th January 6th, 1857.

Sir:

The trial of the coins received at your branch of the Mint during the year 1856, for the Annual Assay, by the Board of Assay Commissioners which convened here on the 4th instant, exhibited the following results.

Coins of branch Mint at Dahlonega, Georgia.

Registered value of coins.	Legal weight.	Actual weight by trial	Remedied by test.
$ 233.00	Ozs. 12.523	Ozs. 12.540	249.5

Results of weighing three half eagles and three gold one dollar pieces of same branch.

	Legal weight.	Actual weight of 1st piece.	of 2nd piece.	of 3rd piece.	of 4th piece.	of 5th piece.
Half eagles	129.	128 5/16	128 6/16	129	129	128 9/16
Gold dollars	25 6/16	25 5/16	25 5/16	26 4/16		

The report from which the above table is taken goes on to state that the Committee then weighed all the deposited coins, and the trial not only confirmed the respective variation, but further developed a half eagle "1/16 of a grain above the standard weight and 1/16 above the variation allowed by law." The Committee then proceeded to test the results of their former weighings by different balances, and with a confirmatory result, and on examination of the weighted coins showing them to be correct, the Commission established the following resolution:

"That the examination of the gold and silver coins of the Mint and the Branches for the year 1856, is in their judgment sufficient and the results highly satisfactory, except as to the branch Mint at Dahlonega, the coins of which are above and fall below the limits allowed by law, as appears in the report of the committee on weighings, as follows: one half eagle 2/16 of a grain below the deviation allowed by law, one half eagle 3/16 of a grain above the same deviation; one gold dollar 1/16 of a grain below the deviation allowed by law, the other 1/16 above the same deviation: the Commissioners recommend, therefore, that their

shall be certified to the President of the United States in compliance with the 20th Section of the Act of 18 January, 1837."

The record embracing the foregoing resolution is signed by all the Commissioners present, and the same was certified to the President of the United States in accordance with their direction. . . .

In transmitting the record as required by the Board of Assay Commissioners through the Secretary of the Treasury, I said, "it may be proper to state, for the information of the President and of the Department, that the values of the coins in the equivalents therein reported to, are as followed:"

"1 Half Eagle 3/16 of a grain above the legal weight — .99 of a cent
1 do 3/16 " below " " — .99 " "
1 Gold Dollar 1/16 " above " " .24 " "
1 do 1/16 " below " " — .24 " " "

"It will be seen that the variance is as much above as below the legal standard, and that the two pieces of each denomination, if weighed together, would be correct in weight and in like manner the four pieces produce a similar result. But as the trial exhibited an irregular adjustment of the individual pieces, the fact is certified by the Board for the decision of the President."

In reply to this communication, the Secretary of the Treasury, writes me as follows: "You will be pleased to require an explanation to be given by the Superintendent of the branch Mint as to the causes of the irregularity in the weights referred to, that it may be laid before the President."

The following is the weight in grains of all the coins returned at your branch during 1856.

Half Eagles 128 7/16 129 11/16 129 2/16 129 7/16 129 129 1/16 129 3/16 129 129 128 5/16
Gold dollars 26 9/16 25 2/16 26 15/16

I have written to you thus fully in order that you and the Council of your Institution may be advised of all the facts elicited by the trial of the returned coins of your branch for 1856, and the correspondence had upon the subject of the irregu-

[illegible] attached in the weights of them, and I have to request that such explana-
[illegible] as it may be possible to give in relation to the subject, may be forwarded
[illegible] at your early convenience.

Sir

I have to acknowledge
[illegible]
[illegible]
[illegible]

To Sec. Treasury

Enclosing communication from Supt Br Mint Dahlonega explanatory of deviation in weights of assay bars for 1886.

March 4, 1887.

March 4th 97.

Sir,

As requested in your favor of the 16th ultimo I asked for an explanation from the Superintendant of the branch mint at Dahlonega respecting the irregular adjustment of some of the Coins struck at that institution. I have this day received a reply to my inquiries on the subject; which I enclose for the consideration of the Department and of the President.

The maintenance of the Standard fineness and weight of the Coins of the United States is of the highest importance not only as a guard on our own Country but our reputation abroad. Hence the necessity of extreme care in all the operations connected with the Coinage. Such as the limit of deviation in the weight of the Gold Coins is but the one quarter of a grain; each piece is separately adjusted. It appears, from the table of the

Superintendent that the adjustments were made by an experienced workman, who has been similarly employed since the organization of the branch of the Mint in 1853. It is hoped the Secretary will that hereafter the Coinage of that branch has been well supported, and to his friendly and prompt satisfactory.

The Coinage the last year amounted to the sum of $ 102,000 and it appears that the actual deviation below the legal weight on this entire amount is but 102 grains, which is much within the limit allowed by Law, and conforms the Remit Notice in my letter of the 19th ult: that the appropriate weighings were observed, and that previous statements of Coin by the Officers of the Treasurer were satisfactory to the weights. But that some of the individual pieces were slightly above and below the legal allowance.

These considerations seem to lead to the conclusion that the errors in the pieces in

question was an accidental one, and is due to a want of proper care, and not to a want of honesty on this, and that doubtless the officers of that institution will take measures to avoid such disagreeable occurrences.

I have the honor to be,
with great respect,
your faithful servant,

James Ross Snowden,
Director of the Mint.

Explanatory of
deviation in weight
of assay Coins 1856

March 4, 1857.

Copy

U. S. Branch Mint
Dahlonega, Ga. Feb. 24. 1857.

Sir:

I received to day Your letter informing me of the unsatisfactory result of the test of the Assay pieces of this Branch Mint for the Year 1856, and asking for an explanation of the irregularities in the weight of some of the pieces reserved, to be Submitted by the Treasury Department to the President.

I was never more surprised in my life; as the pieces heretofore reserved at this Branch have proven upon the test to have been so accurately adjusted.

The hand who adjusts the coins last year, is the same one, who has performed that Service since the organization of this Branch in 1838. He seems to be very Skilful, and the correctness of his adjustments heretofore, shews that he is entitled to be so considered.

From this consideration and the fact that the coins when returned in bulk by the Coiner were so clearly within the limits allowed by law, it was not, at any time during the Year, deemed necessary to require the coins of any delivery to be weighed separately, as is provided for in the 26th Sect. of the Mint Laws — When the weighing in bulk shall not

prove satisfactory to the Treasurer.

I have prepared a Statement to accompany this letter, of the Several deliveries of coins made by the Coiner during the last Year; from which it will be seen that the coins when returned in bulk to me were always clearly within the limits allowed by law.

If I had Supposed, or had had any reason to suppose, that each individual piece was not adjusted accurately and in the manner required by law, I should most certainly have weighed each piece Separately, or caused it to be done; but for the reasons above Stated it was deemed wholly unnecessary.

The hand who performed the adjusting must have become careless or made a Mistake in his weights.

The above is all the explanation it is in my power to give as to the irregularity in weight of the pieces referred to.

Let me ask You to be So Kind as to call the attention of the Secretary of the Treasury & the President to the very Satisfactory tests heretofore made of the coins of this Branch Mint.

Very respectfully
Your obt Servt.

James Ross Snowden Esq
Director of Mint &c &c &c

Reports for August

James Ross Snowden Esqr.
Director of Mint
Philadelphia

Sept 12, 1857

U. S. Branch Mint
Dahlonega Ga. 4th Sept. 1857

Sir –

Enclosed you will find Report for the month of August – & Statement for the Secretary of the Treasury.

In consequence of not having received the acid ordered in the latter part of June, & which was on board a vessel at Philadelphia on the 8th of July, we were unable to make a coinage in the last month; as we had used up in July the acid on hand.

This last lot of acid has met with very unusual detention.

Very respectfully

Experiments

Sept 21. 1857.

Phila Sept 21st '57

Dr. Sir:

In reply to a note received to day from Prof. Booth I have to request you to state the amount in the assay of which the cost of bullion [illegible] or Mem. No 1 is estimated at four or five thousand dollars he requests me (in his note just received) to apply to you for the particulars of the calculation.

May I therefore trouble you to furnish the desired estimate at your earliest convenience? — for at that rate of charge the present appropriation will be totally inadequate to the demands of the case, and hence it becomes necessary greatly to reduce the amount of experimenting contemplated.

Very Respectfully &c
J. F. Barclay

In relation to Inferior
Quality of acids
sent to that & Branch &
ordering certain
articles

Oct 28. 1857

U. S. Branch Mint
Oahlonega Ga. 20th Oct. 1857

Sir —

On the 3rd of August last I requested Crucibles, black lead Pots & 2 boxes Capsules for this Branch.

The Crucibles & the Pots have been received, but I have not heard anything of the capsules — they may have been overlooked.

The last lot of acid was so long on the way, (nearly two months,) that I think it best to procure some more before winter sets in. The last acid received is pronounced by the workmen to be the most impure we have ever had; — and I noticed that the stoppers of several of the carboys had not been made sufficiently secure.

Last year I ordered some filtering Paper & received a quantity so marked — but it ought to have been marked what it was, blotting Paper

for it cannot, I am satisfied, be used for filtering.

We made a substitute in the refining of fine Sea Island Shirting & found that it answered the purpose finely — but the Assayer says he cannot prepare his fine gold without the filtering paper.

I enclose a specimen of some we had & have to request that you will cause some like it to be forwarded if it can be found.

Below find a list of articles now wanted, & you will please cause the receipts for these and some other purchases recently made to be forwarded so that I may include them in my account at the close of the year.

Very Respectfully
Your obt. Servt.

C. McPatton

Ready] 2 Boxes Capsules – (if not already sent)
Ordered] Assayers Register – (a paper bound book
of about 3 qrs – 12 inches long by 10 wide
in the kind heretofore used here)
Have 1/4 Ream filtering Paper
Ordered 30 lbs fine Copper for alloy
Ordered 10 Carboys Nitric Acid
" 2 do – Sulphuric – do.

Bullock & Crenshaw

Oct 28. 7.

Sir.

I have to acknowledge the receipt of your favor of the 20th ultimo.

I regret to learn that your last lot of acid proved to be of an inferior quality. It was shipped by Mr Phillips, who supplies the Nitric and to Brandes, with acids under contract, and for many years always found a careful and reliable man. His attention was called to the subject on the receipt of your letter, but he was unable to offer any explanation of the difficulty. I would be glad if you would state in what particulars the acid was defective. He has been requested to observe the utmost caution in

in Shipping the 12 castings
ordered in Your last letter.

The cupels ordered some
time since are nearly ready
for Shipment.

The Copper requested has
been Shipped.

Due care will be taken
to have the balance of the articles
ordered of the best quality.—

As soon as the articles
ordered are all Shipped the
bills for the same will be
transmitted to You.

Abstract of
reports for October

Nov 19, 1837

James Roosevelt Sawyer Esqr
Director of Mint
Philadelphia

U. S. Branch Mint
Dahlonega Ga. 9th Nov. 1857.

Sir –

I have the honor to forward report for the month of October – & package No. 10 of received coins, with a statement of its contents & also monthly statement for the Secretary of the Treasury.

This communication has been delayed by the absence, (without leave,) of the Assayer, Isaac L. Todd Esqr –

He left this place on the 23rd of October & did not return until the 3rd Inst.

In answer to the inquiry in Mr Linder-man's letter of the 28th of October, desiring to know "in what particular the last lot of acid was defective", I have to state that it appeared to contain a considerable portion of Muriatic acid – & required

a throwing down by the use of nitrate of silver before it could be used.

Very Respectfully
Your obt. Servt.

Dahlonega Ga 5th Dec. 1857

James Ross Snowden Esqr
Director of Mint
Philadelphia
Sir

Yours of the 16th November has been received. The balance due this Branch according to the account forwarded agrees with my account. There is one item August 14 — A. Hatter & Co. for Pig Lead $10.50 — that I do not understand. We have not ordered or received any Pig lead — it may have been procured for making the assay lead which were forwarded in January — but it was furnished in August & the assay lead in January — & this induces me to think that this item should probably be charged to some other Branch.

We have not yet received the Capels that were shipped from Newyork 6th Nov. & about a week before the expiration of the last month, the Asparagus and the last one he had, and in consequen

of the want of capels, I have not been able to forward you a report for the last month.

I have written to our forwarding Agent at Charleston, but have not received any notification from him that the capels had reached their place — I hope however that we will receive them in a few days.

Very Respectfully
Your obt. Servt
J. H. Pattison
Supdt

Dec 17.

Sir,

I have to acknowledge the receipt of your favor of the 6th inst.

The Pig Lead referred to in your letter was procured on the 14th of January last for the purpose of making assay leads for your Branch Mint, but the bill therefor was not presented for payment until the 14th of August following. A part only of the article in question was used at that time. The balance remains in our possession and will be used for the same purpose, when required.

I regret to learn that you have not received the cupels that were shipped to you last month from New York. In order to obviate as far as possible the inconvenience arising therefrom I forward you to day per Adams Express Co. 100 more of the same

Pamphlets Instructions

&c.

Feb 19. 1858.

Oct 15. 5.

Sir

I send you by this mail a few copies of a pamphlet which has recently caused to be printed containing Instructions relative to the transaction of business at the Mint of the United States and its Branches.

It is proper that I should call your attention to the 16th paragraph (page 9) of these instructions. The [illegible] Act of Congress authorizing the Secretary of the Treasury, at his discretion, to direct that the amount of appropriations from all sums might appear on the books of the Department

These regulations will take effect at the Mint and Branch of the Mint on the 1st proximo.

Very Respectfully,
Sir
Your Obt Servt
Director of the Mint

Sir,

I send you by this mail a few copies of a pamphlet I have recently caused to be printed containing "Instructions relative to the transaction of business at the Mint of the United States and its Branches."

It is proper that I should call your attention to the 3d paragraph (page 4) of these instructions. You will perceive that it is made necessary by the decisions from Depr. that a presentation at the suggestion of the Secretary of the Treasury in order that the amount of appropriations from all sources might appear on the books of the Department.

These regulations will take effect at your Branch of the Mint on the 1st proximo.

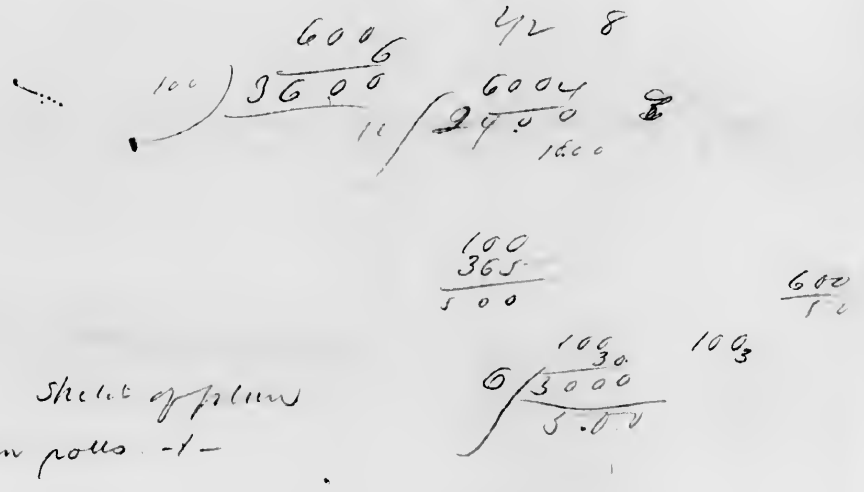
Instructions
respecting transfers
Treasury U. S.

March 24, 1858.

Mint of the United States,

Philadelphia, 185



U.S. Branch Mint
Charlotte Ga. 15 March 1858

Sir—

In the Pamphlet of Instructions recently received, & particularly in section 13 & 16 of page 9 — 8 & 10 of page 13 — & 1, 2 & 3 of page 15, the Superintendent is required to issue his warrant. As heretofore there have not been any warrants used at this branch, you will please send me a form of each kind in use at the Mint, that I may make mine to correspond.

From the regulations on page 13 - Sect. 8 - it appears that it is the intention that receipts shall pass between the Treasurer, Coiner & Melter & Refiner only quarterly. Heretofore the practice has been for these officers to pass receipts monthly. The M & R would receipt the Treasurer for the bullion delivered to him to be prepared for coinage — & the Treasurer would receipt the M & R for ingots & strips returned. And in the same way the coiner & Treasurer receipted each other. These receipts constituted the basis of the Treasurer's Journal entries & were forwarded with the Ops at the close of the quarter. Is my construction correct?

The direction on page 9 — (in reference to the coinage and parting charges) is that these charges must be placed quarterly to the credit of the Treasurer of the U.S. I suppose this will be done by transferring quarterly these balances to the U.S. Bullion Op. My reason for making this inquiry is that sometime since, when I made a transfer in this way, the Treasurer of the U.S. inferred one that I should not have made the transfer to that Op, until a transfer warrant had been issued by the

H 1000.—

Chas P. Ld : Cr credit G. Crisp with H 1000.— by the Ld

Treasury Department.

I enclose a requisition of the Coiner for a pair of new rolls. The last pair obtained, made at Pittsburg, are pronounced by the Machinist to be very hard and excellent rolls - but he says they were not made true on the face - & that he cannot grind them true on the lathe here - which was bought many years since, and seems to be a very imperfect machine.

The strips, when rolled out, have to be put through the draw-bench some many times, & even then they are not regular and of uniform thickness.

The consequence is that there is much more difficulty in adjusting the pieces, than there should be. For the last year I have used extra precaution to see that the coins are within the legal limits. Upon a delivery of coin, I have selected every tenth piece, which I have weighed myself - & if a piece was found to be out of limits, I have required the whole to be re-weighed.

You will please send me a new grain weight & its subdivisions, as the ones we have, have been in use for a long time & may have worn a little.

Very respectfully
Your obt. Servt.
J. M. Patton
Supdt.

James Ross Snowden Esqr.
Director &c.

March 24, 5.

Sir,

I have to acknowledge the receipt of your favor of the 15th inst.

The rolls made at Pittsburg having in several instances proved inaccurate I have ordered those requested by you to be manufactured at Waterbury, Connecticut.

The grain weight and its subdivisions requested will be forwarded to you as soon as they can be made and adjusted.

Section 5. (page 18) of the "Coinage" Law directs that the various deliveries of Bullion, Unparted Disks and Coins, made during the quarter, shall be examined upon the close thereof, and a warrant made for the same, as if the various daily deliveries of each kind constituted one delivery at the end of the quarter. The receipt of the Officer for the bullion received during the quarter is taken on the back of

the warrant. It appears from your letter that the practice at your Branch of the Mint is to sum up the deliveries of Bullion at the end of each month. There is no objection to this course and you may continue it if you think proper, but you will perhaps find it more convenient to adopt the course pursued at this Mint.

Enclosed I send you forms of warrants covering the items which form the basis of the Treasurer's Bullion accounts. I also send form of warrant for payment of bills for incidental and Contingent expenses.

With respect to the Coinage and seigniorage charges I have to remark that the same will be credited as heretofore, namely, the former to "Bullion Deposit Profit and Loss" and the latter to "Profit and Loss".

The balance to the credit of "Bullion Deposit Profit and Loss", must, in compliance with the act of March 4, 1853, be paid annually into the Treasury of the United States.

It is required that the balance to the credit of "Profit and Loss", shall from time to time be paid into the Treasury of the United States to the credit of

your appropriation for ordinary expenses [redacted] this amount thus transferred, will be subject to your requisitions when required for the support of your institution. In preparing the regulation on this subject it was thought that the most convenient mode to effect this transfer, would be to place the same to the credit of the Treasurer of the U. States, but on a further consideration of the subject I am of opinion that the most feasible plan will be to deposit the amount with the Assistant Treasurer of the U. States at Charleston S.C., taking duplicate receipts therefor, one of which you will enclose to me, that I may apprise the Department of the transfer. You will use your discretion as to how often this transfer shall be made. it may be made quarterly, half-yearly or annually.

You will please understand that the deductions from depositors will not be applicable to the ordinary expenses of your Branch Mint, until they are paid, in the manner above stated, into the Treasury of the U. States.

I may add that the regulation requiring the deductions from depositors to be paid into the Treasury of the U. States, was prescribed at the

suggestion of the Secretary of the Treasury, in order that the appropriations from all sources might appear on the books of the Department.

Very Respectfully,
James Pollock

Order for Tools
Per Mrs Wakeman

Mar. 22. 1855

March 22, 1

Gentlemen:

I have to request that you will manufacture for the Branch Mint at Dahlonega, a one pair of chilled iron rolls of the dimentions specified in the endorsed drawing. As much inconvenience has been experienced in the use of rolls of this kind from their being irregular and out of bearable, I will thank you to have them made of the very best material. When finished, you will ship them to me, that I may have them examined before parting with their being sent to the Branch Mint.

Very Respectfully,

James Ross Snowden

Director of the Mint.

Col. Jas. Ross Snowden
Director of Mint of U. S.
Dear Sir

Your letter of yesterday containing drawing ~~and~~ order for one pair of chilled iron Rolls is just received. We will execute the order immediately, and ship them as directed with as little delay as possible. We notice in the drawing that there is no corner left between the journals and the face of the rolls, thinking this an oversight in the person who made the drawing, we would be pleased if you would write us whether we shall leave a small corner in them, similar to the steel rolls we sent you a few days ago. The rolls will be much less likely to break

Yours very truly
Blake & Johnson
J. W. Blake Prest

Leave corner between the journals and the face of the rolls. The same as those sent to the Mint

March 2 1

Gentlemen

I have received your favor of the 23d inst.

You will please have a bond come between the journals and the face of the rolls, similar to the last rolls, received from you a short time since.

Jas Ross Snowden
Director of Mint of U.S.

Dear Sir

We send you this day by Rail Road, one pair chilled Iron rolls as per your letter and draft of March 22d. We have packed them carefully and secured the cover to the box with screws, so that you can have them opened for examination without difficulty. We have only coated them with sweet oil for the same reason, and if you should send by any route where they would be likely to get damp we would advise some additional coating on the face of the rolls. The rolls are perfectly true and very hard. They are also made to the drawing as near as possible without gagues for the diameters of bearings. We have now made gagues for these rolls and shall be able to make more exactly the same. We should be pleased to make a pair of Castiel Rolls of the same dimentions, and would warrant them hard and perfect in every respect, for the sum of Eight hundred dollars ($800.00). The only defect in the rolls now sent, is what is called a pin hole, which is in the face of one of the rolls, but it is so very small we think cannot injure it. If it does we will replace it without cost to the Mint

From the Supt. at Cahlonega:

25 June, 68.

Reconcile in Appropriation for year 1868-69.
Terms of Recruits & Payment of deserts.

U. S. Branch Mint
Dahlonega Ga. 18th June 1858

Sir -

By the appropriation act lately published, I notice that the amount appropriated for this establishment is $6.500 - less by the sum of $4.380 than the Estimate submitted.

There is a considerable balance of the funds heretofore appropriated for incidental and contingent expenses undrawn, & I suppose the intention is that the Secretary of the Treasury will from this undrawn balance supply any deficiency of the present appropriation. A few days since I received my blank warrants - (having been compelled to get them printed in Augusta)

It seems to me that in the use of warrants, it will be necessary to make a change in the receipt which is given to the depositor when he makes a deposit - or rather in the receipts taken from him, when the deposit is paid to him. I send you the form of receipt I found in use

Here, which I suppose has been used from the beginning.

When making up my report to the Department at the close of the quarter the last receipt (or order rather) is detached at the red line & placed on file here, the other portion is sent on as the Treasurer's voucher.

My inquiry is this – Is it necessary in addition to this receipt, to take the depositor's receipt on the warrant also?

Very respectfully
Your obt Servt

C. M. Patton
Supdt.

James Ross Snowden Esqr.

June 25 8

Sir

Your letter of the 18th inst has been received. In answer to the different points therein contained and referred to you, I have to state that the balances of the appropriations heretofore made and undrawn are deducted from the estimates submitted and required for the next fiscal year, the sum required therefor you will draw upon the Department as the public shall require it to be paid to you or to your order.

The forms of warrants you have asked and which should have been inclosed in your letter, are not such as are issued at the Treasury. You will also send your forms of Warrants for payments of Public debt and of receipts to be given for the deposites which have been established by the Act. Your letters will hereafter conform to them.

I am very respectfully &c

James Rush Snowden.

Forwarding Abstract
Balances Monthly

Dec 16, 1837.—

Mint of the United States,

Philadelphia, July 23, 1855.

The Director of the Mint gives notice, in pursuance of an authorization from the Secretary of the Treasury, and in consequence of the present accumulation of silver coin at the Mint, that from and after the first day of August next, and until further notice, the purchases of Silver for coinage will be paid for in Silver coins only, and not in Gold.

The Silver offered for purchase will be weighed, melted and assayed, as usual, and the standard weight determined therefrom, in ounces troy, to the hundreth part of the ounce; and will be paid for (as at present) at the rate of one dollar twenty-two and a-half cents per standard ounce. The receipt given at the first weighing must be presented by the seller or his order, and usually payment may be expected on the day following the date of receipt, or the second day following.

For the information of bullion dealers, country banks, &c., it may be stated, that according to the above rate of purchase, the yield of various classes of coin or bullion will be about as follows:

Five-franc pieces,	99 cents each.
Mexican and South American dollars,	106¼ "
Old Spanish dollars,	105 "
Revolutionary or "hammered" dollars, (often mistaken for the true Spanish dollar,)	101 "
Half-dollars of the U. S. coined before 1837,	52½ "
The same since 1837 to the last change of standard in 1853,	52½ "
Spanish quarters,	23½ "
" eighths,	10 9-10 "
" sixteenths,	5⅛ "
Mexican quarters,	25 4-10 "

Quarter dollars are proportionally less productive of premium, while dimes and half-dimes, coined before 1837, have lost rather more by wear, on an average, than the premium would make up; those coined since 1837 to 1853, will average a premium of 3½ per cent. on their nominal value.

German, Swedish, Danish and Norwegian crowns,	111 cents each.
Old French crowns	114 "
German florins,	41½ "
Prussian and Hanoverian thalers	72 "

Fine silver 136 cents per ounce.

American plate, best manufacture, 120 to 122 cents per ounce.

Genuine British plate, 125 cents per ounce.

At San Francisco the purchases may be paid for in *Gold* or *Silver*, at the option of the Superintendent thereat, until a sufficient supply of silver bullion is received to meet the public demand for silver coin at that Institution.

JAMES ROSS SNOWDEN,
Director of the Mint.

Dec. 16th 1.

Sir,

In consequence of a conversation I had with Mr. Mason of your branch mint I have deemed it proper to send you an adjusting balance and set of weights. the latter have been most carefully adjusted by and compared with our standards & ought to suit & keep them our standards for Coin in every case.

I send the balance and weights to you by Express with directions to carry them carefully and I hope they will reach in good order.

I am, very Respectfully
Your obt. servant,
James Ross Snowden.
Director of the Mint.
